

GELLOID MASK

GEL MASK

SKIN TYPES AND CONDITIONS: FOR ALL SKIN TYPES, DEHYDRATED

DESCRIPTION

An ideal mask for all skin types. It is especially hydrating, rich in antioxidants and leaves the skin feeling soft and supple. This mask is like a replenishing drink of water for dehydrated skin. Gelloid Mask is an excellent base for Custom Blended Treatments, LED, and Ultrasound.

A FEW KEY INGREDIENTS & BENEFITS

Aloe Vera Gel: Hydrating and anti-inflammatory.

Panthenol: A component of water-soluble vitamin B complex. Richly hydrating.

Allantoin: Calming and soothing.

USAGE INSTRUCTIONS

Apply generously to dry skin. Allow it to remain on skin for 10-15 minutes. Remove with water.

Professional Use:

Mask Option 1 (all skin types): Apply a thick layer to face, neck, and décolleté. Allow to remain on the skin for 10-15 minutes. Gently remove with tepid water.

Mask Option 2 (dry, dehydrated, wrinkled skin): Mix ½ teaspoon Gelloid Mask with 3 teaspoons Plump & Renew Mask. Apply a thick layer to face, neck, and décolleté. Allow to remain on the skin for 10–15 minutes. Gently remove with tepid water.

Mask Option 3 (sensitive or reactive skin): Mix 1/4 teaspoon Calm, Nourish and Repair Facial Oil with 3 teaspoons Gelloid Mask. Apply a thick layer to face, neck, and décolleté. Allow to remain on the skin for 10–15 minutes. Gently remove with tepid water.

This mask is highly customizable and may be mixed in with all MCCS Masks and Enzymes as desired. EXCELLENT with Microcurrent and Ultrasound.
