- JavaScript Algorithms and Data Structures, FreeCode Camp (June 2020).
- Responsive Web Design, FreeCode Camp (June 2020).

## PROFILE

Hari is a passionate Full Stack Developer who has a high standard for his work and professional development. Hari has dedicated years to mastering his abilities by participating in numerous training programs and earning a Master's degree in Information Security and Cryptography. When working with other developers, Hari is highly proactive and open to communication. The combination of his traits and abilities helps Hari add lasting value to his future team.

## RECENT PROJECTS

### Full-Stack Demo

HTML, CSS, React.js, JSON Server, Redux, Redux-thunk

A full-stack application with a JSON server, Mocked API, state management with Redux, Async with Redux-thunk, Navigation with React Router, and Bootstrap 4.6 for styling.

### HackerStories

React.js, Firebase

A project built to showcase abilities in front-end development, specifically with Reducer, Call-back, Ref, State, Effect, sorting, and filtering.

### Responsive Web Design

HTML, CSS, JavaScript

A website built during a 300-hour guided coursework. The website included a Tribute Page, Survey Form, Product Landing Page, Technical Documentation Page, and Personal Portfolio Webpage, all of which successfully passed all the automated test suites.

### Transportation Price Comparison

Leaflet, React Leaflet, Tailwind CSS, TypeScript, Material Design Icons, Material-UI Pickers, Digitransit API, MapBox

An application for enabling its users to compare public transit fares to the cost of travel by personal vehicles. The application was built as a part of a guided course on TypeScript and met all the requirements.
