PROFILE

Hung is a proactive Full Stack Developer and a passionate learner who never stops developing himself. He is also an entrepreneur with a diverse background that includes engineering, teaching, and sales. All in all, Hung is a versatile professional who is eager to join an equally versatile team.

RECENT PROJECTS

Poker Board API

Jest, MongoDB, Mongoose, Node.js, Socket.io., TypeScript

An API to record buy-ins, buy-outs, and loans for the poker nights with friends. This project was completed out of my interest in poker and to sharpen the knowledge of relevant technologies, specifically real-time updates. The API is publicly available.

Bamboo Shop API

Google OAuth, Jest, Material-UI, MongoDB, Mongoose, Next.js, Node.js, TailwindCSS

An e-commerce API with authentication using JWT, and sign in with Google for users to place orders. This was my personal project during training at Integrify, from which I master my skills with Node.JS, Mongoose, authentication, and testing.

Countries Store

Hooks, Material-UI, React.js, Redux, Router, Saga, TypeScript

A front-end web application with e-commerce functionalities and that is connected to Rest-Countries API. This was a personal project during the training at Integrify with the purpose of mastering React.js, Redux, the middleware, and MaterialUI.

SKILLS

Front end: JavaScript, Material-UI, Next.js, React.js, Redux, SASS, Socket.io, TailwindCSS, TypeScript.

Back end: Express.js, Node.js, Python.

Database: MongoDB, Mongoose, MySQL, PostgreSQL.

Testing: Jest, Mock (Python), Pytest, Robot Framework.

EXPERIENCE

Full Stack Developer

Integrify | Helsinki, Finland | May 2020 - Present

Entrepreneur

Natural World Tmi | Helsinki, Finland | May 2019 - Present
