- Vietnamese - Native

PROFILE

A strong-minded Full-Stack Developer who is passionate about overcoming challenges and increasing his wide skillset. Favorite technologies to work with are TypeScript, MERNstack, AWS, and Bash. Also, proficient in Project Management and applying Agile methodologies in collaborative work.

RECENT PROJECTS

Practice backend project

Node.js, MongoDB, Mongo Atlas

A back-end project using the aforementioned technologies to simulate common operations and procedures. This is a personal project.

To-do Project

JavaScript, React, ESLint, Prettier

A project that lets users add to-do actions, displays the list of all the actions and allows to delete said actions. This is a personal project.

Country App

JavaScript, TypeScript, React, React Hooks, Redux

A project that fetched data from the public REST Countries API. This project was completed during the training at Integrify.

SKILLS

Front-end: HTML, CSS, SASS, JavaScript (ES5 an ES6), TypeScript, React, Redux.

Back-end: Node.js, Express.js, C#, .NET.

Mobile: React Native (Expo).

Database: MongoDB, Mongo Atlas.

Testing: ESLint, Prettier, Jest.

DevOps: Git, GitHub.

Cloud: AWS.

EXPERIENCE

Full-Stack Developer

Integrify | Helsinki, Finland | January 2020 - Present

Mobile Developer (Project Worker)

Ammantis Oy | Vaasa, Finland | September 2019 - December 2019

- Built a server on the hardware part of the application.
- Built two screens for the mobile application.
- Used Redmine as the project management tracking tool, Git and Github for version control, and agile software development (Scrum) when working on this application.
- Technologies used: React Native, ESLint + Prettier, MongoDB.

EDUCATION

B.Eng. in Information Technology

Vaasa University of Applied Sciences (VAMK) | Vaasa, Finland | September 2016 - July 2020
