ACHIEVEMENTS

- Developed the winning solution for Finna.fi during the Wide Open Source Science 2018 hackathon hosted by Helsinki Think Company and took the first-place prize in the event (October 2018).

PROFILE

Yazan is a multitalented Full Stack Developer with over a dozen client projects under his belt. In many of these projects, Yazan took the roles of a Technical Lead and Project Manager. He is skilled in building solutions from scratch, working with existing codebases, and managing large teams of developers. Formerly at Integrify, Yazan led a career-oriented training program in Full Stack Development and DevOps with twenty participants and contributed to the support and development of other training programs.

RECENT PROJECTS

Yard

React Native, TypeScript, Expo, Redux, Redux-Saga, NativeBase, React-native-maps, Detox, Node.js, AWS Serverless, GitHub Actions, Contentful

An ongoing consulting project for a client who is launching a mobile application for travelers. In this project, Yazan is serving as a Contributing Developer.

Dwellet

TypeScript, React.js, Redux-Saga, Node.js, AWS, Serverless

Worked as a consultant on the front-end and back-end of the client website. On the front-end, worked on new features, debugging, and code refactoring. On the back-end, worked on testing and email templating.

KnoMe

TypeScript, React.js, Gatsby.js, GraphQL, Netlify, Contentful, CircleCI, Storybook

Worked as a consultant to create a landing page for the client. Also, acted as a team leader.

Measur
