PROFILE

Josephine is a solution-driven Full Stack Developer. Her strengths include web design and digital marketing. She is a passionate communicator and a highly compassionate person who is always pleasant to work with.

RECENT PROJECTS

JustShop

Express.js, Material-UI, MongoDB, Mongoose, Node.js, React.js, Redux, TypeScript

An online clothing shop that allows users to perform different actions based on the privileges they have. Ordinary users can view and buy products. Visitors of this application have the option to create an account either by using Google or email to get more privileges to add products to their wish lists or save them into a shopping cart for a longer time. Also, there are users with admin privileges who can create, delete, and update products. In addition to this, users with super-admin privilege can ban users from using their accounts.

CAMAP

JavaScript, Node.js, React.js, Socket.io

A real-time chat application that allows users to have a private chat based on a room chosen during registration. Users are able to send messages as well as receive messages from other users.

MyCheck

EJS, Express.js, JavaScript, MongoDB, Mongoose, Node.js

A personalized checklist application that allows users to create and uncheck or delete a checklist item on a different route. The lists are saved in the database and can be removed from it when the user deletes them.

SKILLS

Front end: Bootstrap, CSS, EJS, HTML, JavaScript, Material-UI, React.js, Redux, TypeScript.

Back end: C#, Express.js, .NET, Node.js.

Mobile: React Native.

Database: MongoDB, MySQL, PostgreSQL.

DevOps: Git.

Other: Digital Marketing, Web Design.

EXPERIENCE

Full Stack Developer

Integrify | Helsinki, Finland | May 2020 - Present

Thesis Worker

Kipfashion | Lahti, Finland | February 2020 - August 2020

- Implemented new features including Chatbot and Currency Converter to increase the number of user experiences and maximize the conversion rate.
- Extended the company's social media existence to Instagram and Facebook to increase visibility on these social media platforms.
- Reviewed the back-end code of the website to improve the page load.

EDUCATION

B.B.A. in Business Information Technology

LAB University of Applied Sciences | Lahti, Finland | January 2019 - Present
