## PROFILE

---

I am an enthusiastic Junior Web Developer with a business education background. My main strength is front-end, but I would also appreciate every chance to explore and learn more about the back-end. My motto is "Focus more on what you will learn, rather than what you have done". I am looking for an opportunity to work with exciting projects and technologies, challenge myself and become better in this career field.

## RECENT PROJECTS

---

### Measur (in-progress, private repository)

JAM stack (React, Gatsby, Contentful), TypeScript, SASS, Jest

A representational website for a Finnish company. The website also implements a web shop and chat functionalities. I act as a front-end developer.

### SELLGAMES 2020 (in-progress, private repository)

MERN stack

A website for a sport event that presented news and information when the event is happening, and implemented content publishing functionality. I worked as a designer and front-end developer.
