

ANH "ANDREA" NGUYEN

FULL STACK DEVELOPER

PORTFOLIO

LINKEDIN

GITHUB

LANGUAGES

- English - Fluent
- Finnish - Novice

ACHIEVEMENTS

- The Complete 2021 Web Development Bootcamp, Udemy (June 2021).
- React - The Complete Guide (Hooks, React Router, Redux), Udemy (April 2021).

PROFILE

Anh is an experienced Full Stack Developer who is also passionate about designing stunning and functional user experiences. Anh has already accumulated nearly a year of experience as a Front-end Developer with a local business. In addition to her passion for UI/UX design, Anh is a proactive volunteer and she is also pursuing a Bachelor's degree in Environmental Engineering. Anh is a great match for a team that is looking for a Full Stack Developer who has an eye for aesthetics.

RECENT PROJECTS

Full-Stack E-Commerce

TypeScript, Node.js, MongoDB, Google OAuth, Stripe, SendGrid, React.js, Material-UI, Redux, Formik

A modern and highly-functional full-stack application. This application was built in order to showcase the ability to implement the most in-demand features in modern e-commerce applications such as user authorization, external payments, and automated email confirmations.

Animation Portfolio

Figma, GSAP, React.js, TypeScript, Styled-Components

A professional portfolio with an automatic chat box built with an emphasis on animation.

Burger Heaven

JavaScript, React.js, Redux, Material-UI

A mock website that enables users to see the restaurant menu, order items, and make a reservation at the restaurant.

Website Temple - Front End

TypeScript, React.js, Redux, Styled-Components, Figma

A mock full-stack website for displaying various templates on the client-side with additional functionalities on the server-side.

Website Temple - Back End

Express.js, MongoDB

The back-end repository of the aforementioned website for storing user information and enabling user authentication.

SKILLS

Front-end Development: Accessibility, CSS, Formik, HTML, Gatsby.js, GSAP, JavaScript, Material-UI, React.js, Redux, SCSS, Styled-Components, TypeScript.

Back-end Development: Express.js, Node.js, REST API.

Mobile Development: React Native.

Database Management: MongoDB, MongooseDB, PostgreSQL.

Testing: Jest.

DevOps: GitHub Actions.

Other: Google OAuth, Figma, SendGrid, Stripe.
