PROFILE

Mostafizur is a determined Full Stack Developer who has diverse work experience and educational background. Mostafizur is skilled with multiple programming stacks and he has already collaborated with other developers on a customer project. Mostafizur also has experience in leading teams and supervising tasks in other industries. Mostafizur is a strong fit for a team that is looking for a Developer who can adapt and grow into leadership roles.

RECENT PROJECTS

My Happy Fund - a fundraising application

React.js, Redux, Ant Design, Node.js, Express.js, MongoDB

A full-stack application for helping fundraisers manage their projects. This application was built in a group of 3 other developers with Rahman leading the client-side development and supporting the back-end developers.

Pragmatic Intelligence Consulting Website

Gatsby.js, GraphQL, Figma, Contentful, Mailchimp, Netlify

An ongoing consulting project for a private end-customer, Pragmatic Intelligence Consulting. This website is built in a team with other developers in collaboration with an external designer. For this project, Rahman designed and created components such as Contact-card and Contact-form components, built the Contact page, and implemented search engine optimization (SEO).

Cooking Recipes App

React.js, PHP

An application built in order to demonstrate abilities related to front-end development with React.js and back-end development with PHP.

React Blog App

React.js

A group project with the goal to develop a modern and functional blogging application.

SKILLS

Front-end Development: Accessibility, Ant Design, Bootstrap, CSS, Gatsby.js, HTML, JavaScript, Material-UI, NPM, React.js, Redux, SCSS, TypeScript.
