Agile, Design Patterns, Git, Linux, OOP, Scrum, SOLID, WooCommerce, WordPress.

### LANGUAGES

English - Fluent

Finnish - Novice

Persian - Native

German - Intermediate

French - Novice

### ACCOMPLISHMENTS

Game Development with JS, SoloLearn (January 2022).

### RECENT PROJECTS

#### Saadi Foundation Books

PHP, Laravel, MySQL, JavaScript, Linux Server, Apache Web Server

An application built for a customer, Saadi Foundation. The application enables the internal users to filter the books based on tags, levels, and authors.

#### Saadi Foundation e-Services

WordPress, WooCommerce, GravityForms, Edwiser Bridge, PHP, MySQL, Linux Server, Moodle

During the employment relationship with Saadi Foundation, managed a variety of its e-Services. In more detail, built a sales section on the website for physical and virtual products, integrated the submission form with the Moodle learning system, implemented automatic payment gateways based on the currencies such as Euro and Rial, and customized required plugins.

#### GofteNegar

PHP, Laravel, MySQL, Vue.js

A system built for recognizing the verbal cognitive problems in children. The system recognizes and labels the word type and lemma based on an updatable dictionary in addition to calculating additional parameters.

#### Prosody

PHP, MySQL, Bootstrap

An application built for recognizing the prosody of Persian poems. The application features a payment gateway for financial aids as well as displays news, data, and articles to its users.

### EXPERIENCE

#### FULL STACK DEVELOPER

Integrify | Helsinki, Finland | January 2022 - Present

- Sharpening competence as a Full Stack Developer by collaborating with other developers of different seniorities on a diverse range of projects and real-life challenges.
- Focusing on front-end development with JavaScript, TypeScript, React.js, Redux in addition to other technologies and concepts such as accessibility and animations.
- Building back-end for web-based applications with frameworks such as Node.js and Express.js.
- Covering additional concepts such as API development and documentation, unit testing with Jest, SQL and NoSQL databases, and version control with GitHub.
- Working with DevOps practices (Bash scripting, Docker containers, and CI/CD with GitHub Actions) and Cloud Services with AWS.

#### WEB DEVELOPER

Freelance | Freelance, Remote | May 2011 - Present

- Designing and implementing numerous websites and e-commerce platforms for a diverse range of clients, mainly using PHP, WordPress, and WooCommerce.
- Designed a shop website for a book publisher, a single-page portfolio for a company, and a blog system for a journalist.
- Two of the most significant projects during this time were GofteNegar and Prosody. In both of these projects, Amir played an integral role in the development of the final product.

#### SOFTWARE ENGINEER

Saadi Foundation | Tehran, Iran | January 2015 - September 2021

- Implemented the core for managing APIs with a single-sign-on system.
- Wrote maintainable and extensible code in a team environment for a URL shortener, registration, e-commerce, and payment system.
- Worked productively with E-Learning team to understand requirements and IT specifications around portfolio management, analytics, and risks.
- Working as a full-stack developer, including front-end and back-end focused tasks.
- Created a corpus management system for managing and analyzing the texts produced by Persian learners.
- Focused on Linux Environment, WordPress, PHP, and Laravel.
