PROFILE

Phat is a passionate Full Stack Developer with several years of working experience. Most recently, he has worked as a part of an R&D team. In addition, Phat has extensive working experience in Animation.

RECENT PROJECTS

Human Resource Information System Solution

CSS, Express.js, Material-UI, Node.js, React.js, Redux, TypeScript

A project completed as part of my employment as a Front-end Web Developer at Kyanon Digital in Singapore. My responsibilities included front-end development and collaboration with the back-end development team that worked on building a REST API for the front-end side of the system.

Tama Back Office

Ant Design, CSS, JavaScript, Next.js, React.js, Redux, REST API, Symfony-PHP

A web client for a mobile application written in React Native. The application connects four different groups of stakeholders and has CRUD functionalities. My responsibilities included front-end development and collaboration with the back-end team that worked on building a REST API for the front-end side of the system. This project was also completed as part of my employment at Kyanon Digital.

Shopee

React.js, React Router, Redux, SASS

An e-commerce web-based application. I was responsible for front-end development. This project was also completed as part of my employment at Kyanon Digital.

SKILLS

Front end: JavaScript, Material-UI, Next.js, React.js, Redux, TypeScript.

Back end: Express.js, GraphQL, Java, Node.js, REST API, Vaadin.

Mobile: MobX, React Native.

Database: MongoDB, MySQL, PostgreSQL.

DevOps / CloudOps: AWS.
