VOLUNTEERING

- Arctic15 (June 2019).

PROFILE

A persistent Full-Stack Developer with a versatile front-end skillset and an eagerness to deep dive into back-end development. Keen to leverage expertise in CI / CD, CLI, CloudOps, AWS, among others, at Integrify to drive client satisfaction.

RECENT PROJECTS

Integrify Lib

Node.js, Express.js, MongoDB, Mongoose, React, Redux, TypeScript, Material-UI

The application replicates a real-life library's online gateway that allows all visitors to search for books and view general information. Any visitors with a Google account can become a user and start borrowing, reserving, and renewing books. A user with overdue fine needs to resolve his/her fine before being able to borrow any books again. Admin users can add, edit, view, remove instances of books, copies of books, authors and users. The project is completed by myself as a part of the Fast-track training program at Integrify.

Countries Web App

React, Redux Thunx, Redux-Saga, Typescript, Material-UI

The project displays information of all the countries and autonomous areas in the world, allowing users to search for a specific country by name and view a country's general information on an individual page. The project was done by myself as a part of the Fast-Track training program at Integrify.

Waitercaller

Python, Javascript, Bootstrap, MongoDB, Pymongo

Waitercaller is a flask app that allows restaurant-goers to notice waiters when they need attention to the table. The project was done by myself as a personal project.

SKILLS

Front-end: HTML, CSS, JavaScript, TypeScript, React, Redux (Thunk, Saga), Material-UI, Bootstrap.

Back-end: Node.js, Express.js, Python (Flask), Java.

Database: MongoDB, PyMongo.

EXPERIENCE

Full-Stack Developer

Integrify | Helsinki, Finland | January 2020 - Present

- Currently completing an intensive 4-month-long training program in Full-Stack Development.
- Focusing on React, TypeScript, AWS, NodeJS, and MongoDB / PostgreSQL among others.

Summer Trainee - Accounts Payable Team

Wärtsilä Finland | Vaasa, Finland | June 2014 - August 2014

- Booked purchase invoices to correct G/L accounts with correct VAT codes.
- Booked purchase invoices against correct purchase orders and items.
- Ensured the correctness of purchase invoices (legal requirements to be fulfilled).
- Ensured that approved invoices go for payment according to due dates by collecting as well as all the possible cash discounts.
- Assisted purchase invoice checkers and approvers in processing invoices and also answering questions from customers and vendors.

Customer Service Manager

Magokoro | Helsinki, Finland | October 2015 - July 2019

- Controlled food quality.
- Inspected the inventory of food, drinks, and equipment.
- Supervised and participated in the kitchen and dining areas.
- Handled customer feedback.
