PROFILE

Chuong is an exceptional Full Stack Developer and a communicative team player. He always looks out for his peers and makes sure that his team delivers visible results. In his future workplace, he is eager to maximize his strengths and retain the best of his qualities.

RECENT PROJECTS

Yard

React Native, TypeScript, Expo, Redux, Redux-Saga, NativeBase, React-native-maps, Node.js, AWS Serverless, GitHub Actions, Contentful

An ongoing consulting project for a client who is launching a mobile application for travelers. In this project, Chuong is a contributing developer.

Lilla Kiosken

JAM Stack (Contentful, Gatsby.js, GraphQL, Netlify, React.js)

A landing page for a waffle shop that has its own legs and can leave the scene when it gets lazy. In this project, Chuong is a contributing developer.

React Portfolio

React.js, Redux, SASS with BEM

A responsive portfolio to showcase recent projects, skills, and personal traits. Currently using JavaScript ES6, React.js, Redux, SASS with BEM naming conventions, and with consideration about Web Accessibility.

PWAGram

Express.js, JavaScript, Node.js

An Instagram-like Web application with Native mobile features. An individual project to explore different caching strategies, usage of service workers, and more, enable native features (working offline, camera access, push notification, etc.) on web applications.

Wolt Server

Express.js, MongoDB Atlas, Mongoose, Node.js

A rest API server to locate nearby restaurants based on the search request and location of users and return results in JSON format, built with Node.js, Express.js, and MongoDB Atlas. This project was also a coding assignment when applying for an internship at Wolt.

DevConnector

MERN Stack (MongoDB, Express.js, React.js, Node.js)

A social web application for developers, built with MERN stack. Users can log in, post and comment, showcase their profiles with tech stack, past experience, and other attributes. An individual project to learn more about MERN Stack and the use of JavaScript in full-stack applications.

SKILLS

Front end: Gatsby.js, JavaScript, React.js, Redux, SASS with Block Element Modifier (BEM), TypeScript.

Back end: Express.js, GraphQL, Node.js.

Mobile: Expo, NativeBase, React Native.

Database: MongoDB, MongoDB Atlas, Mongoose, MySQL, PostgreSQL.

DevOps / Cloud: AWS, GitHub Actions, Netlify.

Content Management System: Contentful.

Other: Object-oriented programming (OOP) with C#.
