

# ASHIF IQBAL

## FULL STACK DEVELOPER

LINKEDIN

GITHUB

### LANGUAGES

- English - Fluent
- Finnish - Intermediate
- Bengali - Native
- Hindi - Fluent

### ACHIEVEMENTS

- Java Programming Part 1, MOOC, University of Helsinki.

## PROFILE

Ashif is an ambitious software developer who enjoys coding even in his free time and this can be seen in his technology skills which are very versatile. Ashif is extremely passionate about deepening his knowledge in software development and looking very much forward to working in this field in the future. Ashif holds a degree from Haaga Helia in Information Technology and he is soon graduating from Metropolia, University of Applied Sciences a Bachelor of Engineering. In addition to his dear hobby (programming), Ashif likes to read and cycle during his free time.

## RECENT PROJECTS

### Instapet

Express.js, JavaScript, Node.js, HTML, CSS, MariaDB, REST API

A media sharing application for pets and their owners. Users can register, log in, and share images of their pets.

### Eco Travel

iOS, XCode, Swift

The application tracks different transportation methods of the user and also tracks the carbon footprint of the users. The API was provided by a company called Moprim. Users can also search for routes and transportation options, a feature that was implemented with the HSL API.

### Nearby Services

Android, Java

An application built to allow students and staff members to add different services near the Nokia Campus in Karamalmi, Espoo.

### React Store

React Native

A media sharing application that enables its registered users to post, modify, and delete their files as well as liking the posts made by other users. The API was provided by Metropolia University of Applied Sciences.
