PROFILE

Syedul is an energetic and results-driven person with a proven track record in web development by using the latest .NET technologies. Syedul holds a Bachelor's degree in Computer science and Engineering in addition to his Master's degree in Telecommunication Engineering. Syedul is very much interested in broadening and deepening his existing skill set in technology at a software development team and being a vital part of a forward-thinking company. During his free time, Syedul enjoys traveling and learning more about different cultures as well as enjoys doing sports.

RECENT PROJECTS

COVID-19 Tracker

Chart.js, React.js, React Hooks, SASS

A single-page application that provides live statistics for the cases of COVID-19 around the world. The application graphically presents the data on bar charts and graphs for better analysis.

Portfolio

React.js, Hooks, React Router, react-parallax, react-reveal

A website that provides an overview of the skill set and other professional abilities.

E-Commerce Restaurant

C#, ASP.NET MVC Core 3.1, Entity Framework Core, JavaScript, Microsoft SQL Server, Bootstrap

A full-stack application built individually from scratch. The application serves as an online food ordering platform with CRUD (Create, Remove, Update, Delete) functionalities and user authorization with Facebook and localserver email and Password and deployed on AWS.

E-Commerce Clothing Store

React.js, Redux-Saga, React Hooks, SASS, Firebase Firestore, Stripe

A fully functional e-commerce application using Firebase for the back end. The application utilizes the Redux-Saga functionalities to change complex asynchronous user Actions enriching the user experience.

SKILLS

Front-end Development: Accessibility, Bootstrap, CSS, HTML, JavaScript, jQuery, React.js, Redux, SCSS, Semantic UI, TypeScript.

Back-end Development: ASP.NET Core MVC 2.2, C#, Entity Framework Core, Express.js, LINQ, Node.js, REST API.

Database Management: Microsoft SQL Server, MongoDB, PostgreSQL.

Testing: Jest.

DevOps: Bash, Docker, Firebase, GitHub Actions, Heroku, Netlify.

Cloud Services: AWS, Microsoft Azure.

Additional Programming Languages: C, C++.

EXPERIENCE

Full Stack Developer

Integrify | Helsinki, Finland | May 2021 - Present

- Taking numerous responsibilities in front-end development with JavaScript and TypeScript and applied frameworks and other tools such as React.js and Redux among many others.
- Contributed to the back-end development of various projects with Node.js and Express.js.
- Built and managed databases with MongoDB and PostgreSQL.
- Conducted software testing with Jest.
- Collaborated with other developers of different seniority via GitHub Actions.
