Creative Cloud – samenwerken

- **De belangrijkste features van de “CC”**
(Bestanden, Bibliotheken en mobiele apps)

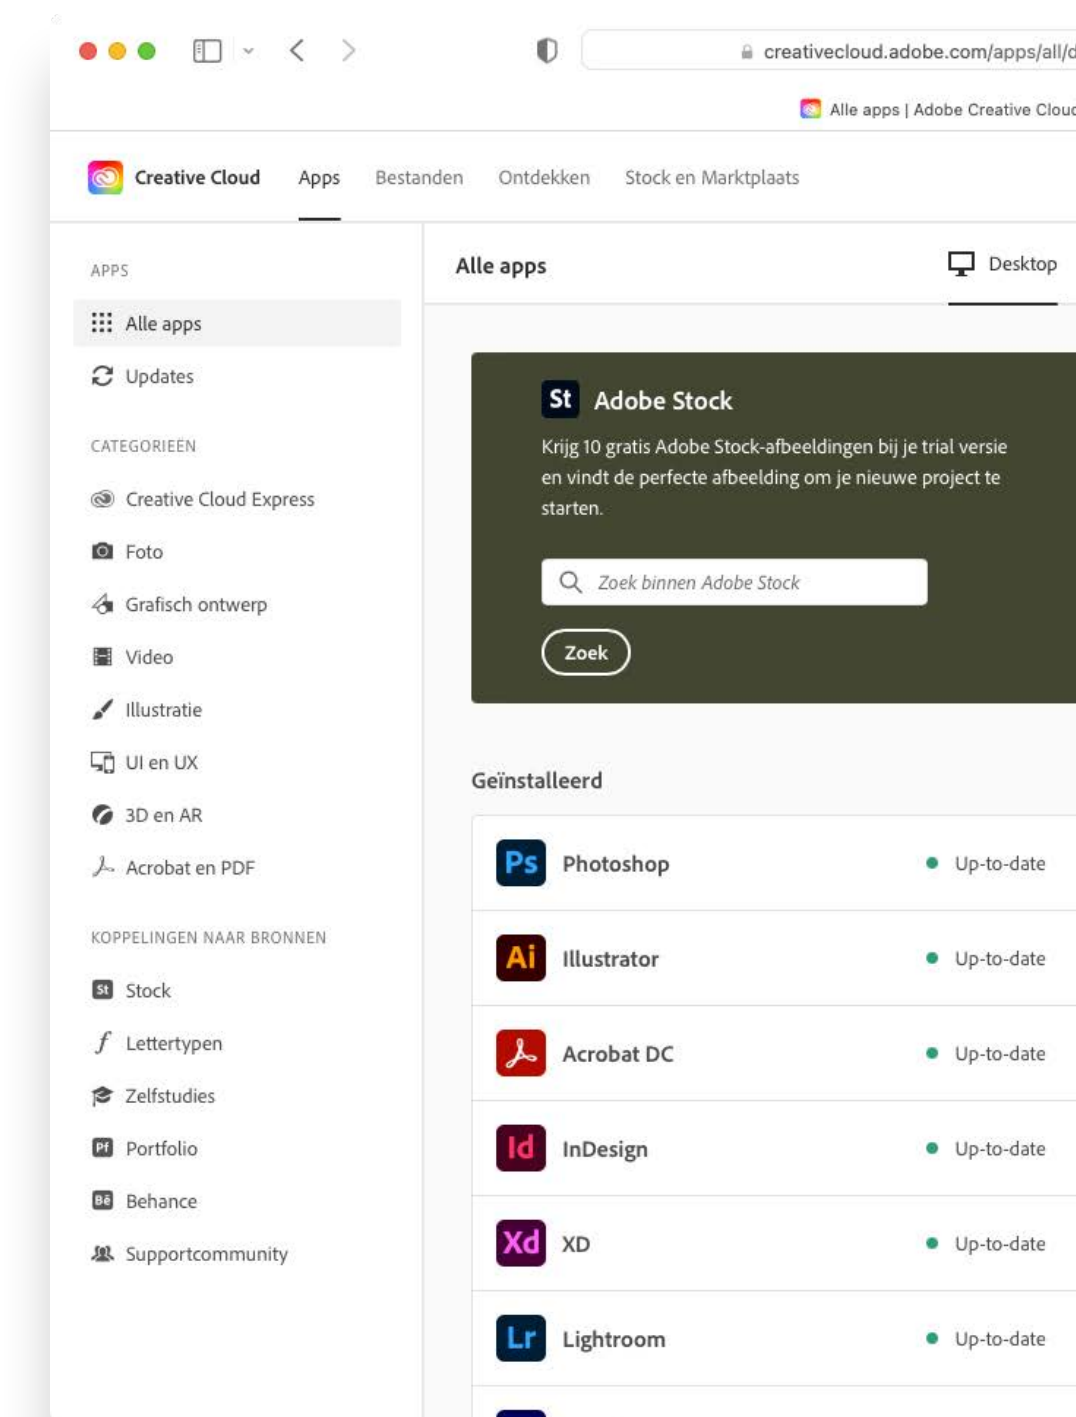

Adobe CC Desktop app

Handig hulpmiddel voor...

- Account-instellingen en voorkeuren
- Installeren, updaten, starten applicaties
- Bekijken en (de)activeren van lettertypen
- Springplank naar andere Adobe-diensten
- Een flinke bak aan studie, promotie, etc.

Maar dan...

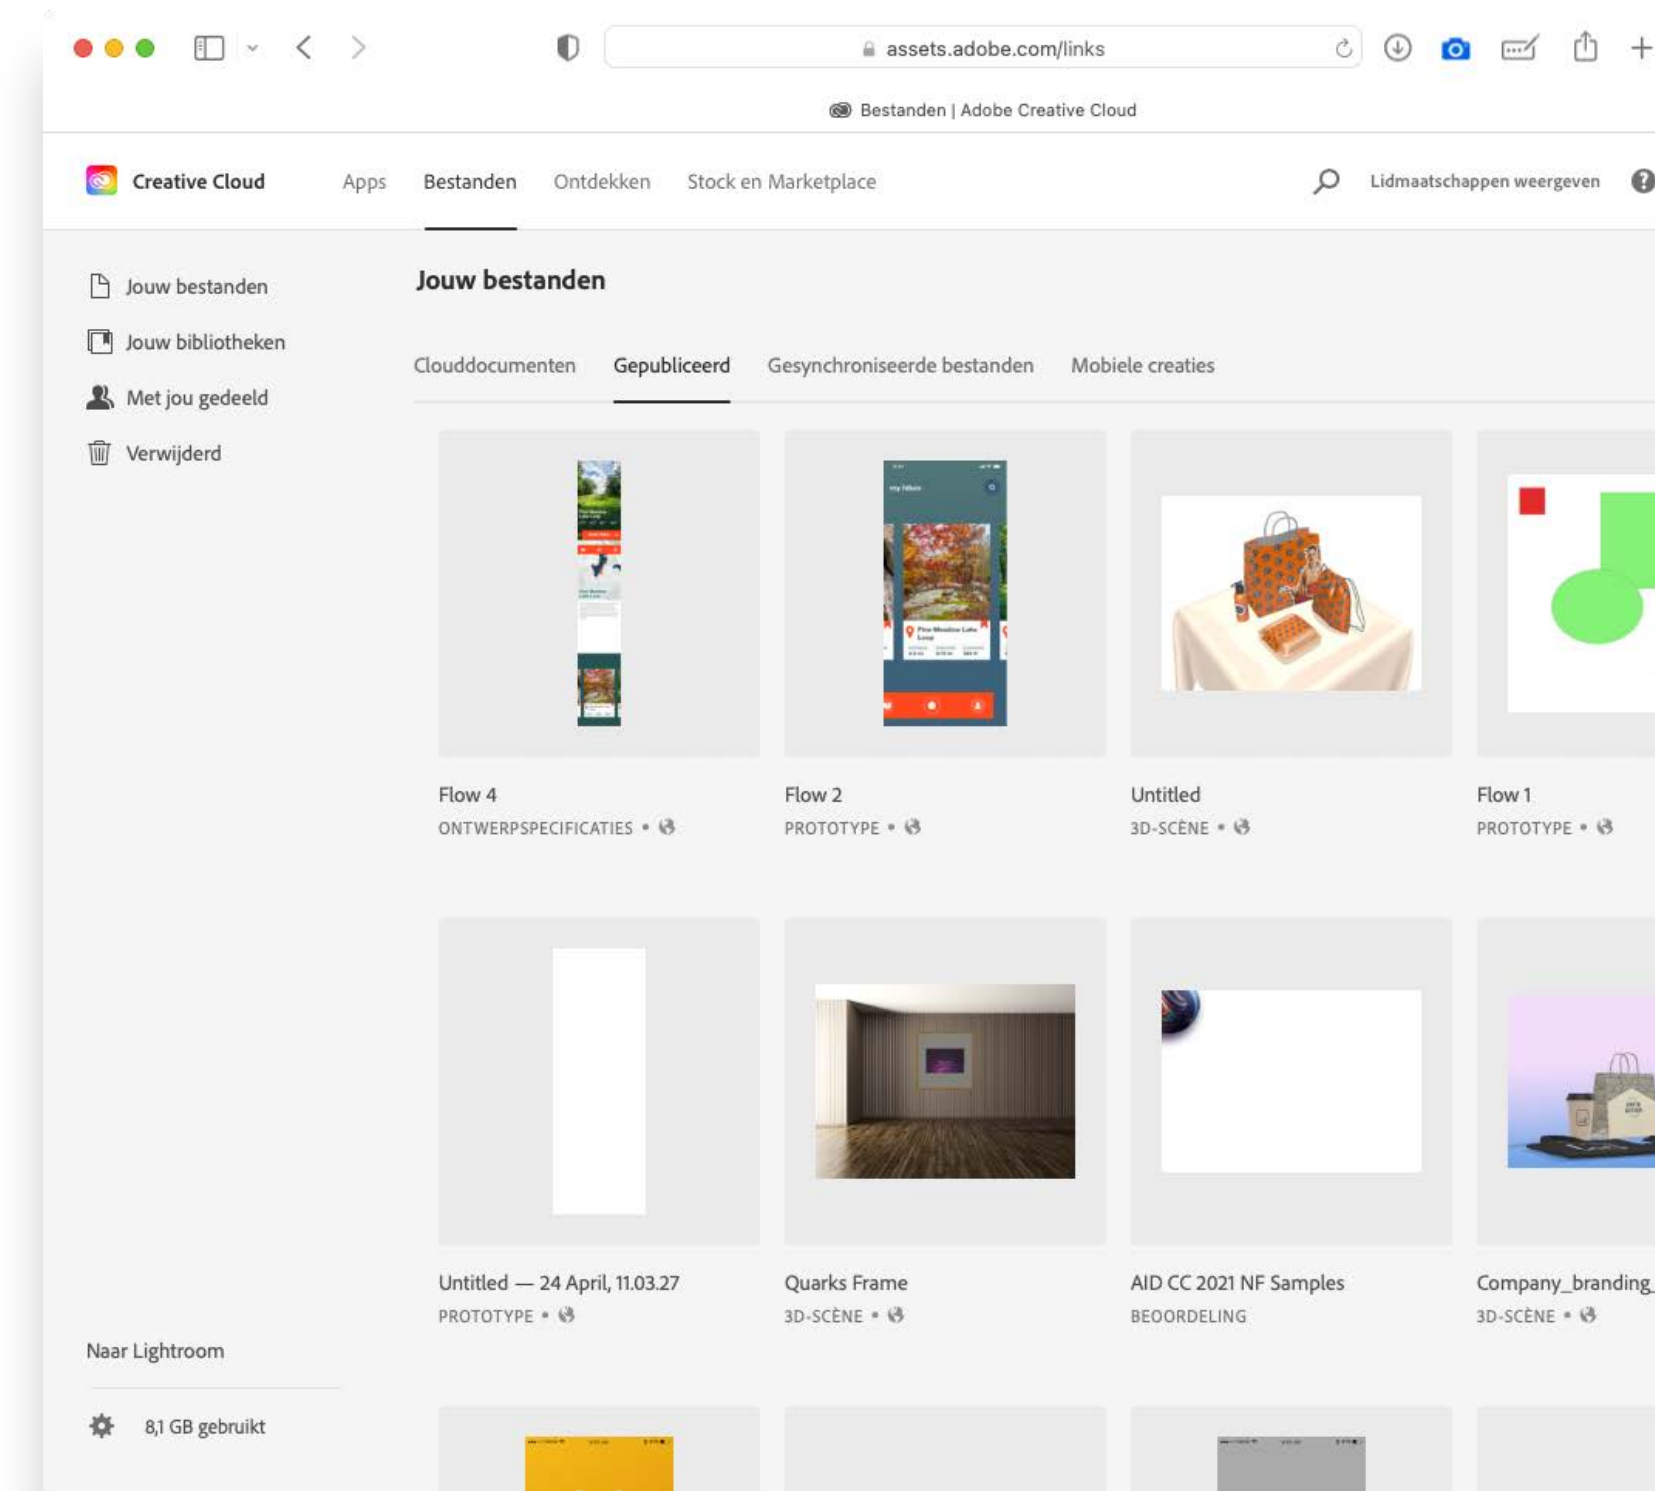

Honor!!!

Het paneel Bestanden

- Clouddocumenten
- Gepubliceerde dingen
- ~~Synchronisatie bestanden~~
en tot slot, de aller-vaagste:
- Projects, Templates, etc...

Maar wat werkt dan wèl goed ?

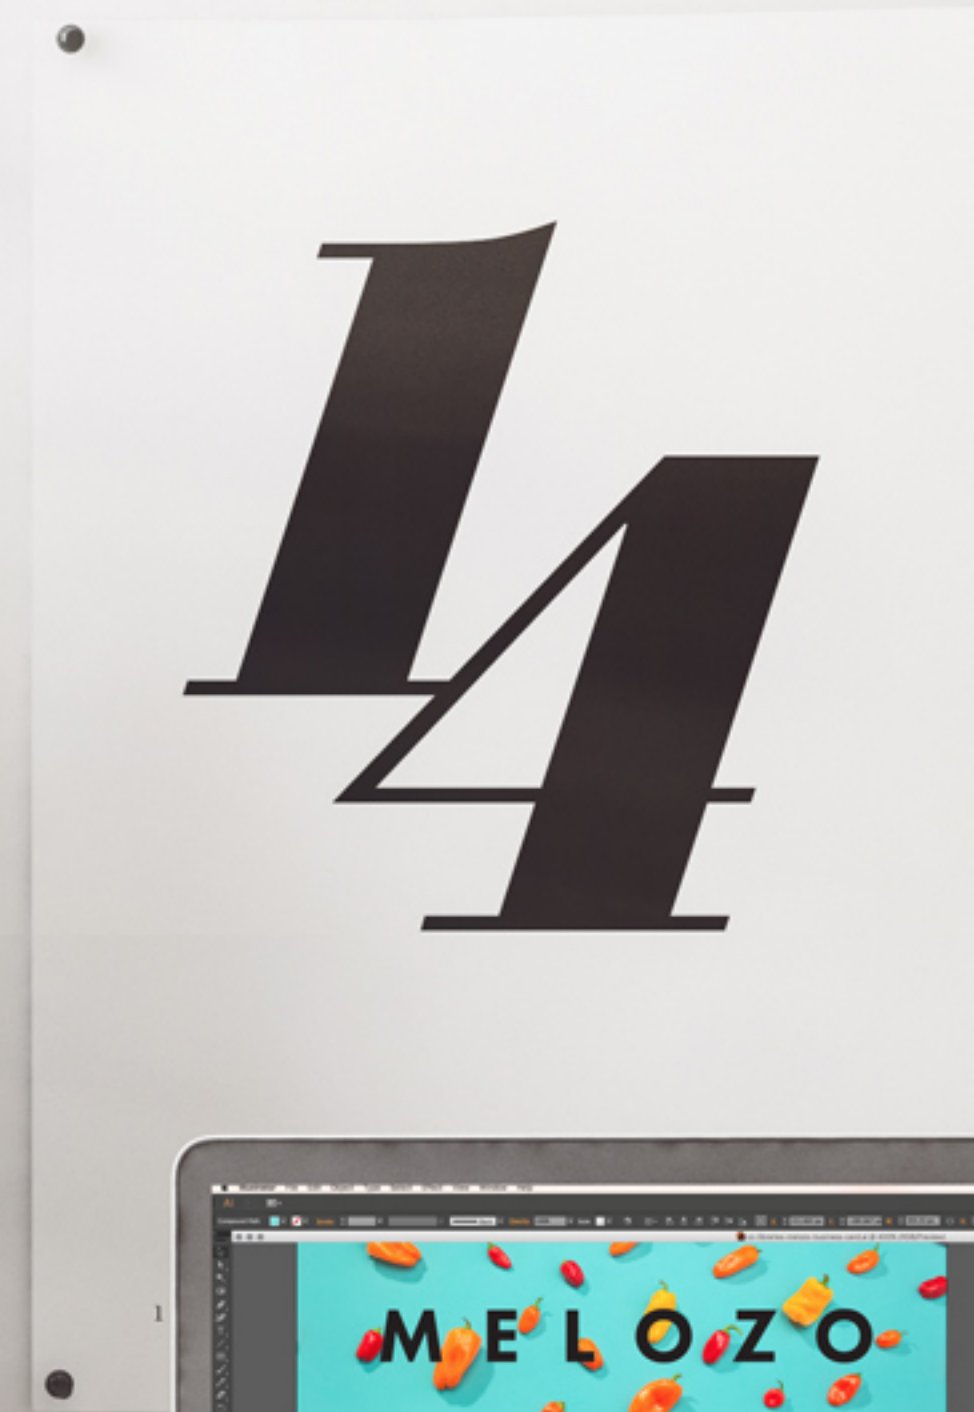

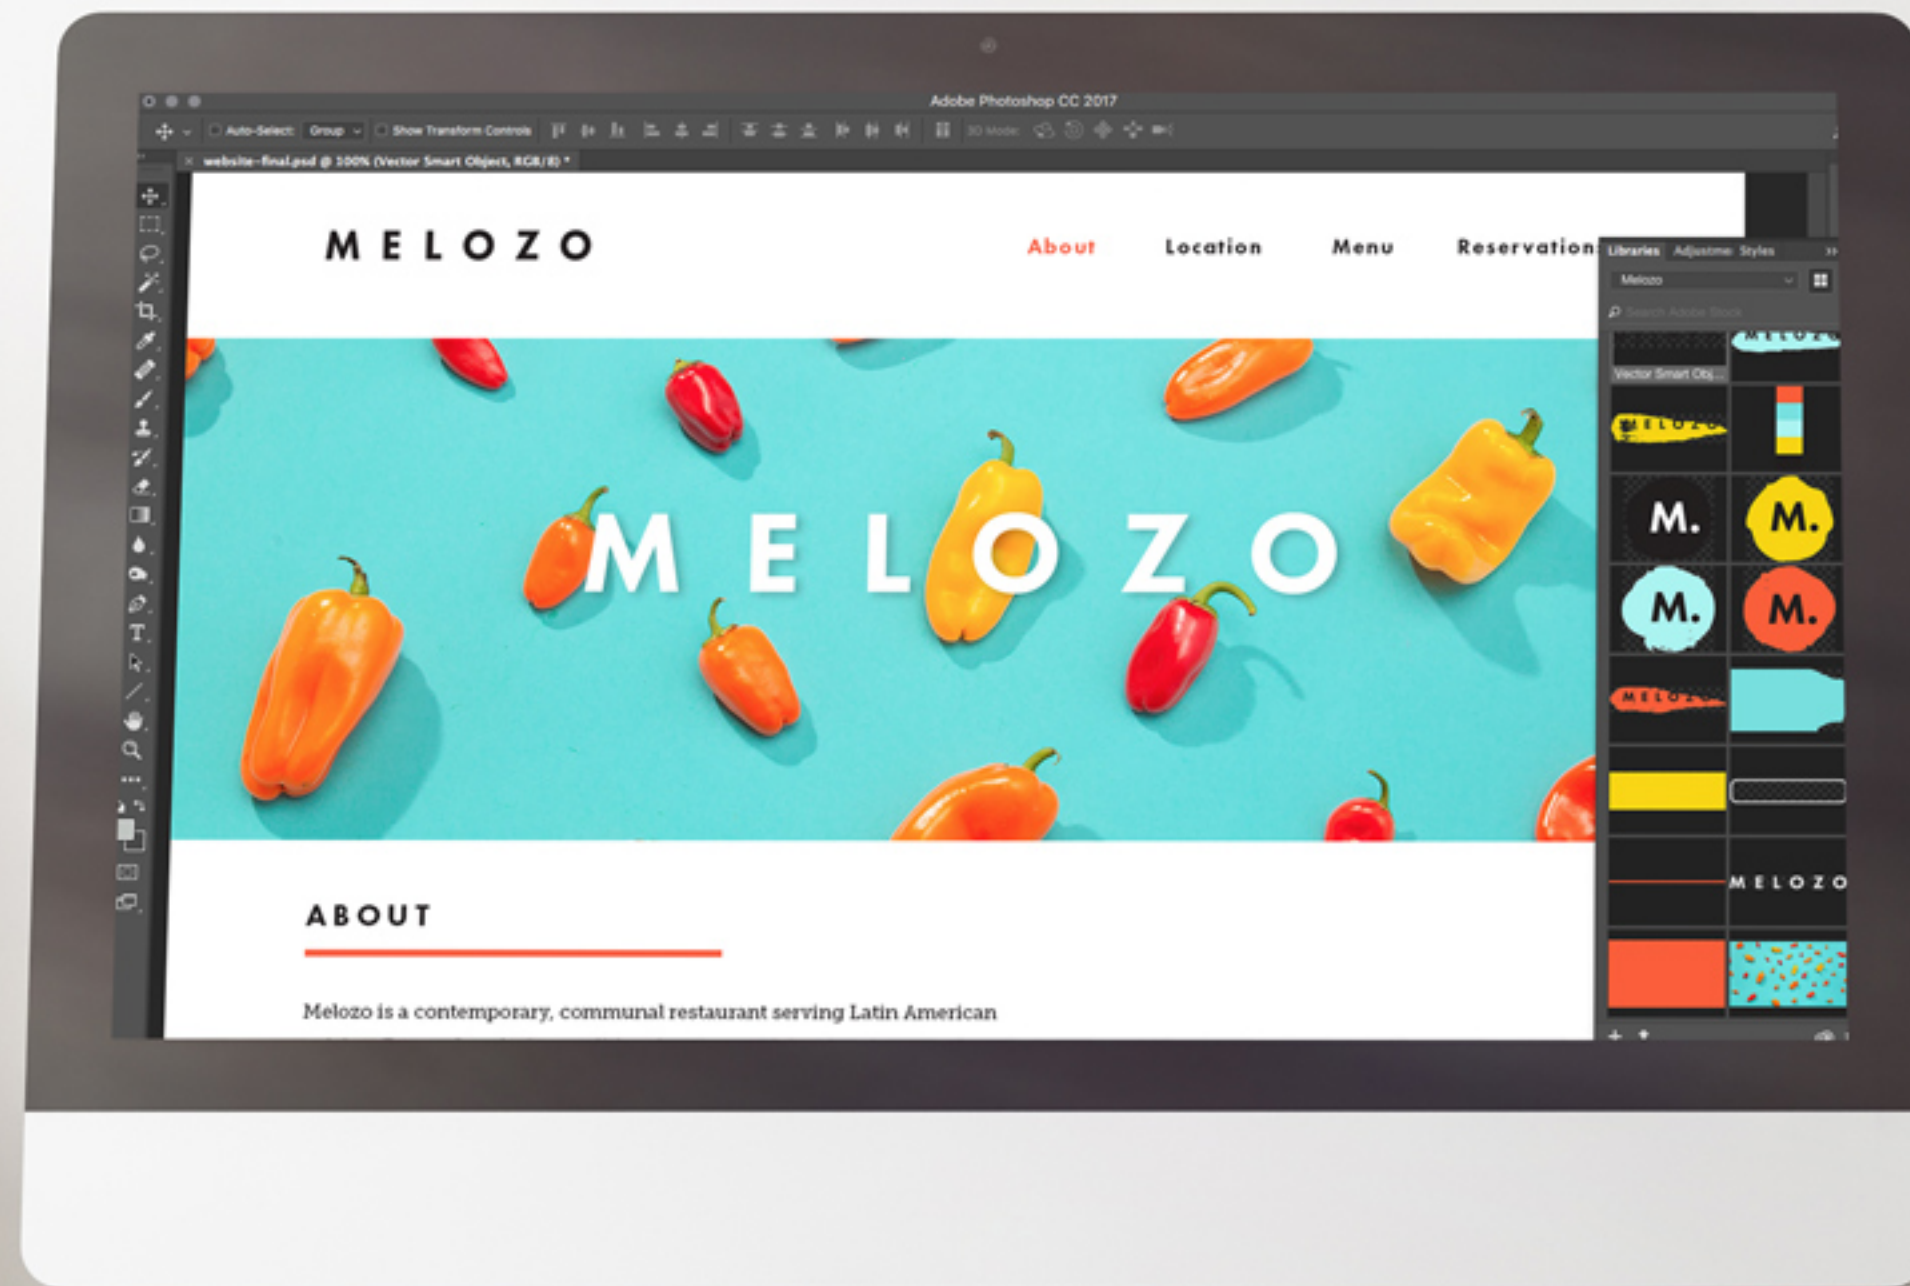

Prima spul!
