

Glazen Shot glaasje

Versie: Rev20260203

Schaal 1:1

Stappenplan

- 1 Laat het formaat ongewijzigd & maak het bestand op in de laag “**Ontwerp**”.
- 2 Houd je bij het opmaken aan de richtlijnen uit het document “**Aanleveren**” behorend bij het door jouw gekozen product.
- 3 Sla het bestand op als een PDF bestand zonder snijtekens of extra afloop. Controleer je PDF voor het aanleveren.

Aanvullende Informatie

Werk je niet vanuit Adobe Illustrator? Verwijder dan alles wat niet gedrukt hoeft te worden en verwijder ook de lagen “**Template**” en “**Informatie**”.

Gebruik geen kleurstalen uit de werktekening, objecten met “**DwD**” in de kleurnaam worden mogelijk verwijderd.

Lever het bestand aan op het formaat **40 x 40 mm**.

Legenda

- Aflopend ofwel aan te leveren formaat.
- Afgewerkt ofwel netto formaat.
- - - Advies veiligheidsmarge.
- Bedrukbaar gebied
- - - Vouw of rillijn
- Items in deze kleur zijn illustratief.
- Items in deze kleur zijn (semi) transparant.
- Items in deze kleur zijn optioneel en afhankelijk van de gekozen product opties.

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion, and the number of people aged 65 and over is expected to increase from 250 million to 450 million.

As a result of these changes, the world population is expected to increase from 5.5 billion in 1990 to 6.5 billion in 2010, and the world population is expected to increase from 6.5 billion in 2010 to 7.5 billion in 2020.

As a result of these changes, the world population is expected to increase from 7.5 billion in 2020 to 8.5 billion in 2030, and the world population is expected to increase from 8.5 billion in 2030 to 9.5 billion in 2040.

As a result of these changes, the world population is expected to increase from 9.5 billion in 2040 to 10.5 billion in 2050, and the world population is expected to increase from 10.5 billion in 2050 to 11.5 billion in 2060.

As a result of these changes, the world population is expected to increase from 11.5 billion in 2060 to 12.5 billion in 2070, and the world population is expected to increase from 12.5 billion in 2070 to 13.5 billion in 2080.

As a result of these changes, the world population is expected to increase from 13.5 billion in 2080 to 14.5 billion in 2090, and the world population is expected to increase from 14.5 billion in 2090 to 15.5 billion in 2100.

As a result of these changes, the world population is expected to increase from 15.5 billion in 2100 to 16.5 billion in 2110, and the world population is expected to increase from 16.5 billion in 2110 to 17.5 billion in 2120.

As a result of these changes, the world population is expected to increase from 17.5 billion in 2120 to 18.5 billion in 2130, and the world population is expected to increase from 18.5 billion in 2130 to 19.5 billion in 2140.

As a result of these changes, the world population is expected to increase from 19.5 billion in 2140 to 20.5 billion in 2150, and the world population is expected to increase from 20.5 billion in 2150 to 21.5 billion in 2160.

As a result of these changes, the world population is expected to increase from 21.5 billion in 2160 to 22.5 billion in 2170, and the world population is expected to increase from 22.5 billion in 2170 to 23.5 billion in 2180.

As a result of these changes, the world population is expected to increase from 23.5 billion in 2180 to 24.5 billion in 2190, and the world population is expected to increase from 24.5 billion in 2190 to 25.5 billion in 2200.

As a result of these changes, the world population is expected to increase from 25.5 billion in 2200 to 26.5 billion in 2210, and the world population is expected to increase from 26.5 billion in 2210 to 27.5 billion in 2220.

As a result of these changes, the world population is expected to increase from 27.5 billion in 2220 to 28.5 billion in 2230, and the world population is expected to increase from 28.5 billion in 2230 to 29.5 billion in 2240.

As a result of these changes, the world population is expected to increase from 29.5 billion in 2240 to 30.5 billion in 2250, and the world population is expected to increase from 30.5 billion in 2250 to 31.5 billion in 2260.

As a result of these changes, the world population is expected to increase from 31.5 billion in 2260 to 32.5 billion in 2270, and the world population is expected to increase from 32.5 billion in 2270 to 33.5 billion in 2280.

As a result of these changes, the world population is expected to increase from 33.5 billion in 2280 to 34.5 billion in 2290, and the world population is expected to increase from 34.5 billion in 2290 to 35.5 billion in 2300.

As a result of these changes, the world population is expected to increase from 35.5 billion in 2300 to 36.5 billion in 2310, and the world population is expected to increase from 36.5 billion in 2310 to 37.5 billion in 2320.

As a result of these changes, the world population is expected to increase from 37.5 billion in 2320 to 38.5 billion in 2330, and the world population is expected to increase from 38.5 billion in 2330 to 39.5 billion in 2340.

As a result of these changes, the world population is expected to increase from 39.5 billion in 2340 to 40.5 billion in 2350, and the world population is expected to increase from 40.5 billion in 2350 to 41.5 billion in 2360.

As a result of these changes, the world population is expected to increase from 41.5 billion in 2360 to 42.5 billion in 2370, and the world population is expected to increase from 42.5 billion in 2370 to 43.5 billion in 2380.

As a result of these changes, the world population is expected to increase from 43.5 billion in 2380 to 44.5 billion in 2390, and the world population is expected to increase from 44.5 billion in 2390 to 45.5 billion in 2400.

As a result of these changes, the world population is expected to increase from 45.5 billion in 2400 to 46.5 billion in 2410, and the world population is expected to increase from 46.5 billion in 2410 to 47.5 billion in 2420.

As a result of these changes, the world population is expected to increase from 47.5 billion in 2420 to 48.5 billion in 2430, and the world population is expected to increase from 48.5 billion in 2430 to 49.5 billion in 2440.
