ARTICLE 2. ACCESS TO THE SKI LIFTS

The Travel Tickets grant access to the ski lifts operated by ADS and, in the case of some of them, to other ski lifts operated by the *Société d'Aménagement de la station de La Plagne* (hereinafter «SAP» - «Paradiski» area).

Certain ski lifts may be closed with or without notice, specifically for weather or health reasons. ADS does not guarantee the daily opening of all of the ski lifts operated by it.

Access restrictions, related for example to the age, the physical condition of the User or the equipment used by the latter (skis, snowboard, mountain bike, etc.), may apply to certain ski lifts. These restrictions may be consulted in ADS sales points and at the boarding point of each ski lift. It is the User's responsibility to ensure that an access restriction does not apply to them. Any User affected by an access restriction will be refused entry to the ski lift in question and neither the User nor the person who purchased the Travel Ticket used by the User will be entitled to any compensation.

Access to a ski lift with a mountain bike is only possible if the following conditions are met:

- The mountain bikes are shown on the list of vehicles authorised by local by-laws displayed at the departure point of the ski lift.
- The User holds a Travel Ticket allowing them access to the ski lifts with a mountain bike.

Transport tickets issued for the winter season do not allow access for mountain bikes on ski lifts operated by ADS. As an exception, "Pedestrian" Transport Tickets issued for the winter season or valid for the entire winter season allow access to the funicular connecting Bourg-Saint-Maurice to Arc 1600, subject to the following restrictions:

- Access to the funicular with a mountain bike is prohibited on Saturdays, and every day during school holidays;
- Access to the funicular with a mountain bike is open from 10:40 a.m. If the User wishes to use the funicular with a mountain bike before this time, the user must be able to justify that he/she is making a journey between his/her home and his/her workplace ;
- The mountain bike must be completely clean. No washing area is available at the funicular boarding stations;
- The user should, preferably, board one of the two front compartments of the funicular.

Mountain biking is prohibited in winter on the ski slopes accessible by ski lift.

The "Pedestrian" Transport Tickets issued for the summer season do not allow access for mountain bikes on ski lifts operated by ADS.

Travel Tickets do not grant Users any priority entry to the ski lifts. Holders of a Reduced Mobility Card (with the "priority" mention) or a professional ski instructor card, however, may use the priority access at ski lifts.

To facilitate the passing of permissions when the User passes through the ski lift entry terminals, the Travel Ticket must be carried in a left-hand pocket containing nothing but the Ticket.

Minors still under parental authority or legal guardianship must at all times be accompanied by an adult to supervise them in all circumstances.

ARTICLE 3. PARTICIPATION IN ACTIVITIES

Access restrictions, related for example to the age or physical condition of the User, may apply to certain Activities. These restrictions may be consulted in ADS sales points, on the web site. It is the User's responsibility to ensure that an access restriction does not apply to them. Any User affected by an access restriction will be refused entry to the Activity in question and neither the User nor the person who reserved this Activity for this User will be entitled to any compensation.

Minors still under parental authority or legal guardianship must at all times be accompanied by an adult to supervise them in all circumstances.

ARTICLE 4. COMPLIANCE WITH THE REGULATIONS

The User must comply with the local by-laws displayed at the departure points of the ski lifts operated by ADS, and with any instructions given to them by any member of ADS staff when using the ski lifts. They are also advised to follow the «ten commandments for good conduct on the slopes» issued by the *Fédération Internationale du Ski*.

The User must comply with the health regulations issued by the authorities or by ADS in respect of any decision taken by the authorities. If the health protocol is applicable, it is displayed in ADS sales points and on the Web Site.

The User must refrain from any behaviour detrimental or likely to be detrimental to the safety, health or peace of other users, ADS staff or sub-contractors (drunkenness, verbal or physical violence, consumption of alcohol or drugs, carrying weapons, use of devices creating excessive noise, jostling, queue-jumping.) in the departure and arrival zones of ski lifts operated by ADS and on the lifts themselves. The User must also refrain from damaging the equipment operated by ADS.

In the event of failure to comply, ADS reserves the right to ban the User from the ski lifts which it operates, to notify any police officer with jurisdiction in the area and to take legal action against the User.

ARTICLE 5. TICKET CHECKS

A system of «hands free» terminals enable entry to the ski lifts operated by ADS to be controlled automatically.

The User must be able to show ADS staff or an authorised ticket inspector:

- An original valid Travel Ticket allowing them access to the lift being used and in their name in the case of a nominative Travel Ticket.
- Where applicable, the original document or documents proving that they fulfil the conditions for benefitting from a free or reduced-price Travel Ticket of Activity.

Should the User not present the documents listed above, they will not be able to access the ski lift or the Activity and will have to pay the price of the Travel Ticket necessary to use the lift and/or the cost of the Activity.

In the case of an inspection by an authorised ticket inspector, the User must pay a flat-rate indemnity of up to five times the value of the daily pass. The amount of the fixed penalty will be rounded up to the nearest Euro.

If the User is unable or unwilling to settle the amount of the fixed penalty immediately, the authorised ticket inspector will issue a fixed-penalty notice. They are then entitled to check the User's identity and address. If the latter refuses or is unable to prove their identity, the authorised ticket inspector will immediately report the matter to any police officer with jurisdiction in the area who may require the User to be brought before them. The matter will be brought to an immediate close if the User settles the total amount due. The User has a period of three months from the commission of the offence to pay the amount owing comprising any sum equivalent to the price of the Travel Ticket, the fixed penalty and administrative fees. Within the same timescale, the User may also contest the matter with ADS. If the fixed penalty is not paid or contested during the prescribed timescale, ADS will pass the matter to the public prosecutor and the User will receive an increased fine payable to the public purse.

An authorised ticket inspector may take away a third party's Travel Ticket that the User is using, so that it can be returned to its true holder.

No fixed penalty is payable should the User not present proof of order for an Activity.

ARTICLE 6. NON-TRANSFERABILITY OF TRAVEL TICKETS AND ENTRY TICKETS TO ACTIVITIES

Travel Tickets and entry tickets to Activities are personal and may not be sold or given away free to a third party. Any Travel Ticket or entry ticket to an Activity which has been sold or given away free will be considered invalid.

By way of exception, a non-nominative Travel Ticket of the shortest duration and purchased at the highest rate is transferable. The new holder of the Travel Ticket must, however, meet the conditions laid by ADS (notably age) to benefit from the Travel Ticket.

ARTICLE 7. LOSS OR THEFT OF A TRAVEL TICKET OR AN ENTRY TICKET TO AN ACTIVITY

In the event of the loss or theft of a microchip card on which their Travel Ticket or entry ticket to an Activity or QR code which constitutes their entry ticket to an Activity is encoded, the User must declare the loss or theft in an ADS sales point if the Travel Ticket or entry ticket to an Activity was purchased from ADS or from one of their representatives. They must supply:

- If the Travel Ticket or entry ticket to an Activity was purchased from ADS, the original proof of order for the Travel Ticket or entry ticket to an Activity.
- If the Travel Ticket or entry ticket to an Activity was purchased from a representative of ADS, the number UID of the microchip card on which the Travel Ticket or entry ticket to an Activity is encoded.

On presentation of these items, a new microchip card or QR code will be issued immediately. The issue of a new ski card is charged at the price displayed in sales points. This sum will not be refunded if the original microchip is found. The issue of a new QR code is free of charge. The new microchip card, the new QR code will enable the user to benefit from a new Travel Ticket or a new entry ticket to an Activity for the remainder of the validity of the initial Travel Ticket or entry ticket to an Activity.

Lost or stolen permissions of the microchip cards or QR codes are immediately deactivated. They can therefore no longer be used if the microchip cards or QR codes are found.

In the case of Travel Ticket for which ski days are invoiced, these days are invoiced to the purchaser of the Travel Ticket as long as the loss or theft of the Travel Ticket has not been reported, whether the Ticket was used by the legitimate holder or by a third party.

By way of exception, no replacement can be made for access tickets to an Activity that are fully used, even if this use is made by a person other than the legitimate holder.

If the Travel Ticket or entry ticket to an Activity has been purchased from an entity other than ADS or one of their representatives, the User must notify this entity of the loss or theft of the Travel Ticket or entry ticket to an Activity. Thus, if the Travel Ticket or Activity Pass was purchased from SAP, the User must declare the loss or theft of the Transport Pass or Activity Pass to SAP.

ARTICLE 8. DEFECTIVE MICROCHIP CARDS

Microchip cards on which a Travel Ticket or an entry ticket to an Activity has been encoded must not be folded, pierced, broken or placed near a heat source.

In the event of a malfunction of a microchip card, the User may return it to an ADS sales point, where it will be replaced free of charge. However, if it the malfunction proves to be due to non-compliance by the User with the Conditions of Use, the replacement card will be invoiced to the user at the price displayed in the sales points.

If the microchip card has been issued by an entity other than ADS or one of its representatives, the User must apply to that entity for a replacement. Similarly, if the microchip card has been supplied by SAP, the User must apply to the latter.
