Steps to become an app partner

1. Build your app

Sign up for a free account to build on the Xero platform. Take a look at our getting started guide and SDK docs to get your integration up and running smoothly.

2. Get certified

Find at least three customers who love your app, you'll need these to get certified. See our certification checkpoints and integration best practices for more details.

3. Publish your app

Work with us to showcase your app on the Xero App Store to reach millions of customers and 100,000+ accountants and bookkeepers.

4. Grow with Xero

Unlock exclusive features when your app has been approved on Xero App Store including tools and resources to accelerate your growth.

No action is required to determine your app partner tier, this will be evaluated on an ongoing basis and automatically adjusted.

Ready to join the Xero App Store?

Talk to your developer evangelist to find out more or if you've built your app and are ready to get started, log in to <u>developer.xero.com</u> and head to My Apps to begin the setup process.
