

ROUND

A range of colourful and ravishing radishes

BACCHUS HF1

The purple radish crunchy and tasty

Bright purple round root with a nice white flesh. Crunchy and tasty.
Thin taproot. Upright foliage and good leaf attachment, easy to pick up.
Bacchus is a hybrid variety with a short crop cycle.
For spring and summer harvests, for indoor or open field crops.

CIRCUS HF1

The classic European style

Red round root with a thin taproot. Resists cracking and hollowing.
Dark green and upright foliage, providing an easy pick up.
Circus is a hybrid variety with a short crop cycle, also suitable for pre-pack markets.
For spring and summer harvests, for indoor or open field crops.

ANGELUS

A pure white colour and tolerant to downy mildiou

Pure white skin on the whole root.
Very uniform and round bulb. Resistant to cracking and hollowing.
Upright foliage, good leaf attachment.
Variety with intermediate resistance to downy mildew.
For spring and summer harvests, for indoor or open field crop.

HORUS

A bright colour and a sweet taste

Attractive and homogeneous yellow skin colour.
White flesh.
Quality root, very round and smooth. Resistant to cracking and hollowing.
For spring and summer harvests, for indoor or open field crops.

For an optimum colour, consider a gentle cleaning way (soaking or low pressure).
