

## Agility Agriculture – Baby Leaf Summary

July 2021

### **Mizuna Vitared F1 (Brassica Rapa)**

Mizuna Vitared is a new leafy vegetable with an attractive, light peppery taste. This variety is ideal for year-round production. It is rich in vitamins and anthocyanin and presents well as part of a mixed pack.

### **Green Mizuna Early F1 (Brassica Rapa)**

This variety is early to mature. It has a broad and upright leaf. The leaves are light green and extremely tasty. This variety is high yielding and vigorous to grow.

### **Charis F1 (Brassica Juncea)**

Charis F1 is reddish purple in colour. It has glossy leaves, is nicely pungent and a good upright plant habit.

## Agility Agriculture – Baby Leaf Summary

July 2021

### **Chaplin F1 (Brassica Juncea)**

This variety is a 'reddish purple' in colour. It has attractive glossy leaves and a good upright plant habit.

### **Choho F1 (Brassica Rapa)**

These leaves are an attractive light green colour. This variety has good heat and cold tolerance.

### **Tatsoi F1 (Brassica Rapa)**

This variety displays attractive spoon shaped thick, dark green leaves. The plant habit is a compact rosette growth. Tatsoi has a high vitamin content, tender leaves and a super flavour.
