

COPACABANA

Agronomy and resistances combined in a yellow cherry.

PLANT

Strong and productive plant. It presents high resistances to Cladosporium and intermediate resistance to ToBRFV.

FRUIT

Average weight of 12-14 g. very attractive fruit with a homogeneous yellow color. Tasty fruit with high brix and crunchy texture. Its firmness gives it a good shelf life and makes it ideal for mix.

RSISTANCES

HR: ToMV, Pf:A E, Fol O, Vd /Va

IR: TYLCV, ToBRFV
