

Pink tomatoes

Solanum lycopersicum L.

Premium variety for the European market

<i>Momotaro tomato</i>	<i>Intense pink colour</i>	<i>Strong vine</i>
------------------------	----------------------------	--------------------

Our pink tomatoes really live up to their type 'speciality'. They stand out because of the two extremes of flavour you'll find. Umami taste; they are sweet and tangy at the same time! And are filled with a rich aroma!

Or what to think of the rich shades of pink on the exterior and the vibrant coloured interior. Not to mention the vigorous plant traits. The fruits, the taste and the plants provide a special mix of characteristics, that make our pink tomatoes one of a kind.

Pink Treat F1
Speciality

Pink Treat is a Momotaro tomato variety with slightly ribbed shoulders and a multi locular structure. It produces clusters with 4-5 fruits, suitable for loose harvest only. Suitable for transportation.
