Akinola Akinleye

Frontend Developer with a relentless drive for innovation and problem-solving. On a journey to weave intricate web of code to digital experiences.

Experiences

Computer Programmer · Capital Design Insight Corporation Summer 2023

- Worked with team members to create a WordPress web application.
- Assisted in the development and maintenance of CIDC curtains and blinds by writing clean and efficient code in PHP.
- Created a shopping cart system to allow users to add curtains and blinds of their choice to cart and purchase them.
- Participated in regular team meetings and brainstorming sessions to exchange ideas and find innovative solutions to complex problems.
- Collaborated with product managers and stakeholders to gather requirements, define project scope, and ensure the alignment of software resolutions with business goals.

Android Mobile Programmer · Algonquin (Final Project) Sep 2022 -- Dec 2022

- Developed object-oriented soccer highlight mobile application (Java, Android Studio).
- Developed app to fetch real time API and display data to users.
- Developed a login system to allow users to login to access the application.

Web Developer · Ayaworan Studios Fall 2022

- Designed and developed a website consisting of a login system to enable users to create and edit pages (Django framework).
- Worked with MySQL database to save users and objects created in the web application.
- Worked independently in a fast-paced environment.

Student Intern · HiiT PLC Jan 2018 -- June 2018

- Learnt and taught new students basic foundations on web site development.
- Create presentations for senior professionals.
- Help as a desk representative to collect data from new students.
