

# Basic Needs

The investment solution "radicant SDG Impact Solutions - Basic Needs" aims to promote the Sustainable Development Goals SDG 1 "No Poverty", SDG 2 "No Hunger" and SDG 16 "Peace, Justice and Strong Institutions". These goals aim to end poverty in all its forms everywhere (SDG 1), end hunger, achieve food security and improved nutrition and promote sustainable agriculture (SDG 2), and promote peaceful and inclusive societies and institutions for sustainable development (SDG 16).

The selected companies foster at least one of these SDGs. They help people around the world meet their basic needs for livelihood, food, and security through sustainable offerings such as affordable housing, access to finance, healthcare, and education, as well as crime prevention or cybersecurity.

Increasing migration triggered by climate change, poverty, hunger and war should increasingly strengthen the focus on meeting basic needs and favour this investment trend in the next decade.

## KEY FACTS:

- ✓ Makes single SDGs or subsets of them investable, enabling you to select the most promising SDG-related impact themes.
- ✓ Sustainability assessment based on radicant's unique SDG-alignment methodology.
- ✓ Selected companies making a positive contribution to the UN SDGs.
- ✓ Focused on companies providing solutions to real-world problems by their products or services.
- ✓ Multi-stage investment process yielding broadly diversified portfolios with a focus on financial quality based on a dynamic multi-factor model with ~50 key historical performance drivers.
