

Clean Water & Sanitation

The investment solution "radicant SDG Impact Solutions - Clean Water & Sanitation" aims to promote the Sustainable Development Goal SDG 6 which aims to ensure availability and sustainable management of water and sanitation for all.

The selected companies promote the provision of clean water for people and the environment through solutions around water treatment, water conservation or nature protection. The increasing scarcity of water in the wake of climate change, the growing understanding of the central role of water and the search for security of supply in agriculture should favour this investment trend in the next decade.

KEY FACTS:

- ✓ Makes single SDGs or subsets of them investable, enabling you to select the most promising SDG-related impact themes.
- ✓ Sustainability assessment based on radicant's unique SDG-alignment methodology.
- ✓ Selected companies making a positive contribution to the UN SDGs.
- ✓ Focused on companies providing solutions to real-world problems by their products or services.
- ✓ Multi-stage investment process yielding broadly diversified portfolios with a focus on financial quality based on a dynamic multi-factor model with ~50 key historical performance drivers.
