

Gender Equality

The investment solution "radicant SDG Impact Solutions - Gender Equality" aims to promote the Sustainable Development Goal SDG 5 "Gender Equality". This goal aims to achieve gender equality and empower all women and girls.

The selected companies provide sustainable solutions in areas such as contraception, hygiene products, childcare, access to finance or are among the best employers for women worldwide.

The growing recognition of the inequality of opportunity between men and women and its fundamental injustice for half of humanity should favour this investment trend in the next decade.

KEY FACTS:

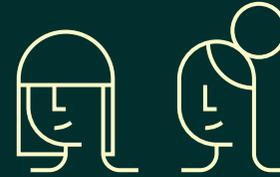

- ✓ Makes single SDGs or subsets of them investable, enabling you to select the most promising SDG-related impact themes.
- ✓ Sustainability assessment based on radicant's unique SDG-alignment methodology.
- ✓ Selected companies making a positive contribution to the UN SDGs.
- ✓ Focused on companies providing solutions to real-world problems by their products or services.
- ✓ Multi-stage investment process yielding broadly diversified portfolios with a focus on financial quality based on a dynamic multi-factor model with ~50 key historical performance drivers.
