

# Societal Progress

The investment solution "radicant SDG Impact Solutions - Societal Progress" aims to promote the Sustainable Development Goals SDG 8 "Decent Work and Economic Growth", SDG 9 "Industry, Innovation and Infrastructure" and 10 "Reduced Inequalities". These goals support societal progress, particularly by ensuring decent, fair and attractive work for all (SDG 8), promoting a sustainable and innovative economy (SDG 9), and reducing inequality within and between countries (SDG 10).

The selected companies foster at least one of these SDGs. They offer sustainable solutions in areas such as inclusive living, elder care, public transport or basic home care, stand out for their sustainable innovation potential or are among the world's best employers. The growing need of people to live in a fair, just and progressive society with functioning infrastructure, beyond the coverage of basic needs, should favour this investment trend in the next decade.

## KEY FACTS:

- ✓ Makes single SDGs or subsets of them investable, enabling you to select the most promising SDG-related impact themes.
- ✓ Sustainability assessment based on radicant's unique SDG-alignment methodology.
- ✓ Selected companies making a positive contribution to the UN SDGs.
- ✓ Focused on companies providing solutions to real-world problems by their products or services.
- ✓ Multi-stage investment process yielding broadly diversified portfolios with a focus on financial quality based on a dynamic multi-factor model with ~50 key historical performance drivers.
