

Climate Stability

The investment solution "radicant SDG Impact Solutions - Climate Stability" aims to promote the Sustainable Development Goals SDG 7 "Affordable and Clean Energy", SDG 11 "Sustainable Cities and Communities" and SDG 13 "Climate Action". These goals aim to restore climate stability by ensuring access to affordable and sustainable energy for all (SDG 7), making cities and settlements inclusive, safe, resilient and sustainable (SDG 11), and taking action to mitigate climate change and its impacts (SDG 13).

The selected companies foster at least one of these SDGs. They offer sustainable solutions in areas such as solar, wind or hydropower, hydrogen, energy efficiency, electromobility, clean logistics or "green" real estate.

The increasing tangibility of the climate crisis, the rising heat and congestion of cities and the growing need for independent energy supply should favour this investment trend in the next decade.

KEY FACTS:

- ✓ Makes single SDGs or subsets of them investable, enabling you to select the most promising SDG-related impact themes.
- ✓ Sustainability assessment based on radicant's unique SDG-alignment methodology.
- ✓ Selected companies making a positive contribution to the UN SDGs.
- ✓ Focused on companies providing solutions to real-world problems by their products or services.
- ✓ Multi-stage investment process yielding broadly diversified portfolios with a focus on financial quality based on a dynamic multi-factor model with ~50 key historical performance drivers.
