

WHAT WILL ELIZABETH WARREN DO AS PRESIDENT?

End Washington corruption and fix our democracy

Make government work for the people by getting big money out of politics, ending lobbying as we know it, fixing our judicial system, abolishing the Electoral College, and enacting the biggest set of anticorruption reforms since Watergate.

Make the rich pay their fair share

Promote fairness and economic growth by asking the wealthiest Americans to pay their fair share in taxes and closing loopholes so that big companies like Amazon no longer pay zero in federal income taxes.

Fight climate change and build a green economy

Defeat the climate crisis by fighting for the Green New Deal, transition to 100% clean energy, create more than 10 million new, green jobs, and commit to ending environmental injustice.

Fix our broken health care system

Treat health care as a human right by transitioning to Medicare for All, lowering the cost of prescription drugs, addressing maternal mortality and the opioid crisis, and protecting the right to choose.

Ensure racial and economic justice and opportunity for all

Level the playing field by reforming our criminal justice and immigration systems, advancing LGBTQ+ rights, boosting wages for women of color, providing new opportunities for workers of color, honoring and empowering Tribal Nations and indigenous peoples, and protecting the rights and equality of people with disabilities.

Raise wages and create more American jobs

Empower workers by raising wages, creating new, American jobs, transforming our approach to trade, ensuring paid family and medical leave, and creating a fair work week for part-time workers.

Hold big corporations accountable

Break up big tech companies like Facebook and Amazon, make sure executives of major companies that deliberately hurt people through criminal negligence face real criminal penalties, and end Wall Street's stranglehold on the economy.

Build financial security for everyone

Expand Social Security, make public college and technical school tuition free, cancel debt for 95% of Americans with student loans, offer universal child care, give every kid a great public school education, and ensure safe, affordable housing for all.

Protect our communities

Make us all safer by protecting our communities from gun violence and combating white nationalist violence.

Fix our foreign policy and end our endless wars

Bring our troops home, end our endless wars, cut our bloated defense budget, invest in diplomacy, honor and support our service members and veterans, and create a foreign policy that works for all Americans, not just the wealthy and well-connected.
