

**WARREN**

# HEALTH CARE IS A HUMAN RIGHT.

## | WHAT THIS PLAN IS ABOUT

The cost of health care is crushing American families, even those with good insurance.

Last year,

- 37 million American adults didn't fill a prescription,
- 36 million people skipped a recommended test, treatment, or follow-up,
- 40 million people didn't go to a doctor to check out a health problem — all because of costs,
- 57 million people had trouble covering their medical bills, and
- 87 million Americans were either uninsured or underinsured.

I'VE SPENT MUCH OF MY CAREER LEARNING ABOUT FAMILIES GOING BROKE FROM THE HIGH COST OF HEALTH CARE. WHEN I'M PRESIDENT OF THE UNITED STATES, I'M GOING TO DO EVERYTHING IN MY POWER TO MAKE SURE THAT NEVER HAPPENS TO ANOTHER PERSON AGAIN.

”

**ELIZABETH WARREN**

!!

Tens of millions of people are one bad diagnosis away from going broke — but they don't have to be.

Elizabeth Warren is the only candidate for president with a comprehensive, effective **plan to help as many people as possible, as fast as possible** — and get us to Medicare for All.

When Elizabeth is President, everyone in America will be able to see the doctor they need and be covered for vision, dental, hearing, mental health, and more — at little or no cost to them whatsoever.

✓	No more out-of-network costs,
✓	No surprises, &
✓	No one going broke because they get sick.

Because taking care of our people isn't up for debate.

## | HOW WOULD WE PAY FOR IT?

Despite what some others may say, middle-class taxes won't go up — not by one penny — under Elizabeth's plan.

Here's how her plan to pay for it works: To cover the cost, we start by taking the money employers are currently required to pay under the Affordable Care Act to private insurance companies and have them pay it toward Medicare instead. The rest of the funding comes from **taxes on giant corporations, Wall Street, and the richest 1%**, targeted spending cut, and cracking down on tax evasion and fraud.

Several Independent economists, including President Obama's former head of Medicare and Medicaid, the former chief economist at the Department of Labor, and the former chief economist at the IMF, have verified that Elizabeth's plan is fully paid for, won't raise taxes on middle-class families, and will make sure everyone gets the care they need from the doctors they trust.

**Elizabeth Warren is running for president to fight for all of us** — that's why she's the candidate with a comprehensive and achievable pathway to making sure every single person in this country has high-quality health care. Because the time for small ideas is over. This is our moment to dream big, fight hard, and win.

## | WHY IT'S NEEDED

When Elizabeth was in middle school, her father had a heart attack. He was out of work for a long time, and the bills piled up. They lost their family station wagon, and they came about an inch away from losing their house.

Later, as a bankruptcy professor, Elizabeth spent decades studying why families go broke. **She came to find that one of the top reasons for that is medical problems — even for families with insurance.**

So when it comes to health care, it's not just political talking points for Elizabeth Warren. She knows from her own experience and her career that these costs are hurting families. Between 2013 and 2016, the number one reason families went broke was still because of health care costs — despite over 90% of families being insured in 2016. Meanwhile, communities of color are disproportionately hurt by our profit-based health care system.

*Continued on the next page*

Nearly **22% of Native American, 19% Hispanic, and 11% of Black nonelderly individuals were uninsured** in 2017. Medicare for All would close these gaps immediately.

**We shouldn't put people's health in the hands of insurance companies whose goal is to make as much money as possible.**

In 2018 alone, private insurance companies made \$23 billion in profits while premiums skyrocketed and out-of-pocket costs went through the roof.

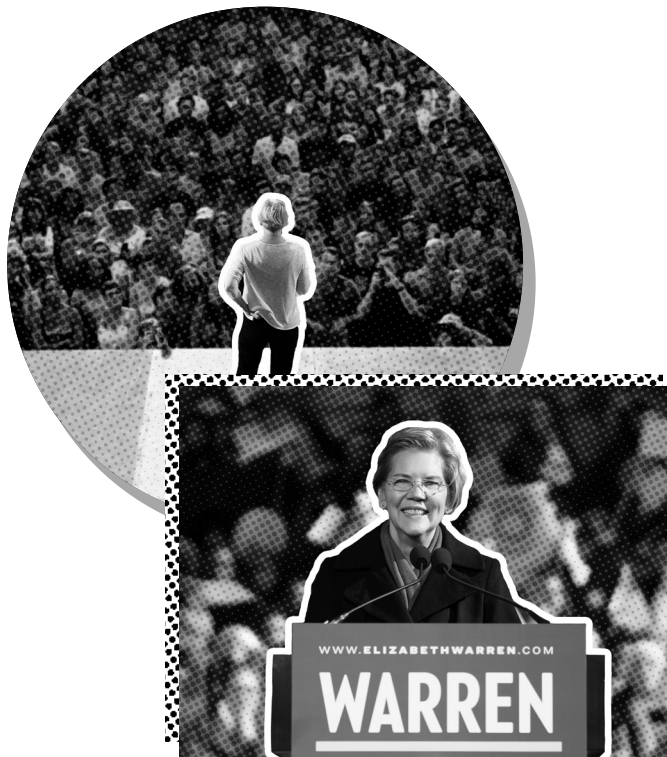

**It's simple: People shouldn't have to go bankrupt to get health care.**

#### ABOUT ELIZABETH

Elizabeth grew up on the ragged edge of the middle class in Oklahoma. Like many Americans, her path wasn't a straight line—she dropped out of college at age 19, got married, and then continued her education thanks to a college that cost \$50 a semester. Elizabeth is the daughter of a janitor, who had the chance to become a teacher, a law professor, a United States Senator, and a presidential candidate because America invested in her.

After Wall Street crashed our economy, Elizabeth Warren went after the big banks who fleeced millions of Americans, fighting to create the Consumer Financial Protection Bureau—the country's first consumer watchdog agency to hold financial institutions accountable for cheating people. When Republicans tried to stop her, she ran against one of them—and won the election!

Now, Elizabeth Warren running for president to build an America that works for all of us, not just the wealthy and well-connected. This is our moment to dream big, fight hard, and win.
