

Xo 55 duo double-paddle mixer

Heavy work made lighter

Intensive, fast and thorough mixing

Easy to handle: no back-driving torque acting on the user

Excellent ergonomics due to upright working position

The counter-rotating double-paddle mixer makes lots of mixing jobs easier and quicker. There is no counter-torque on the user and the machine is easy to move even in heavy and viscous material. You can generally count on being finished in just half the time. That's modern mixing!
