

COMPLIANCE

# Regulatory Compliance: Regs4ships

Bringing clarity to operations  
and procedures

# A single solution for regulatory documentation

Through OneOcean Compliance, wherever a vessel is in the world it has the resources it needs to remain compliant with all regulatory and environmental requirements. And provides an accurate audit trail with consistent digital reporting – all accessible through the OneOcean<sup>LR</sup> Platform.

The Regulatory Compliance module, also known as **Regs4ships**, is a comprehensive, searchable database of every official regulatory document from multiple sources, including the IMO, ILO and numerous Flag States. Fully digital, it's a fast and efficient way of accessing current data to make sure you stay compliant.

Easily search topics, themes and archived content by keyword or title

# Mitigate the risk

Staying compliant can be a complex and time-consuming process for seafarers. You need to factor in international laws, ever-changing maritime regulations, plus marine rules that protect crew, cargo, vessels and the environment. And the repercussions for getting it wrong can be significant, incurring both financial and reputational consequences.

**Regulatory Compliance** from OneOcean<sup>LR</sup> provides quick and direct access to the most important legislation, with guidance categorised by regulatory body. The solution replaces the manual process of sourcing, researching, collecting, reviewing, updating, distributing and tracking regulatory changes on a vessel-by-vessel basis.

Updated and managed by a team of professional mariners, the Regulatory Compliance module is accessible via the OneOcean<sup>LR</sup> Platform.
