

COMPLIANCE

# Regulatory Compliance: Regs4yachts

One-stop regulatory  
compliance

MY Kaos OceanCo

# A trusted source for regulatory publications

Through OneOcean Compliance, wherever a vessel is in the world it has the resources it needs to remain compliant with all regulatory and environmental requirements. And provides an accurate audit trail with consistent digital reporting – all accessible through the LR OneOcean Platform.

Regs4yachts, the Regulatory Compliance module, provides uninterrupted access to live and archived regulatory publications from multiple sources, including the IMO, ILO and numerous flag states. Fully digital, it's a fast and efficient way of accessing compulsory maritime legislation, regulations and supporting guidance to ensure every vessel maintains compliance.

Search our unrivalled collection of maritime legislation, regulations and documents in one digital tool.

The image displays two screenshots of the Regs4Ships web application. The top screenshot shows the 'International' section of the platform, featuring a sidebar with navigation options like 'IMO', 'EU Legislation', and 'Anti-Piracy'. The main content area includes 'Popular Links' (SOLAS, MARPOL, STCW), 'International Indexes' (IMO, ILO, EU Legislation, Anti-Piracy, Instructions to Surveyors), and a 'Latest Updates' section listing various maritime regulations and reports from July 2022. The bottom screenshot shows a detailed view of a 'Merchant Marine Circular' (MMC-245) issued by the Panama Maritime Authority. The circular is titled 'Authorized Private Maritime Security Companies (PMSC) Transiting High-Risk Areas (Online Application) (Rev. 01/22)'. It provides information on the authority's role, the purpose of the circular, and lists authorized PMSCs. The circular also includes a reference to Resolution No. 106-13-DOAM of March 8th, 2012, and Resolution No. 106-85-DOAM of December 17th, 2014. The circular is dated 13/07/2022 and is available in PDF format.

# Mitigate the risk

Staying compliant can be a complex and time-consuming process for seafarers. You need to factor in international laws, ever-changing maritime regulations, plus marine rules that protect crew, cargo, vessels, and the environment. And the repercussions for getting it wrong can be significant, incurring both financial and reputational consequences.

Regs4yachts replaces the manual process of sourcing, researching, collecting, reviewing, updating, distributing, and tracking regulations on a vessel-by-vessel basis – so that you can focus on implementing operational changes.

Its regulatory databases are updated and managed by the LR OneOcean team of professional mariners, giving you the most quality data and an extensive archive built over 20+ years.

The innovative solution can be used on PCs and tablets. With the Onboard version allowing crew to seamlessly switch between online and full offline operating modes – enabling uninterrupted access to regulations. Our secure, encrypted and stable back up for mandatory documents when connectivity is limited, known as the Compliance Index, ensures crew always maintain compliance. By hosting documents on our own servers, we remove any further risk of losing access to publications.

## Benefits

**Mitigated risk** of non-compliance through uninterrupted access to regulations.

**Provides clarity** around regulation changes and updates, helping you understand the impact on internal processes and policies.

**Saves time**, removing manual searches across multiple publications.

**Conserves valuable hard drive space on board** as there is no need to store the entire Regs4yachts database offline.

**Supports advanced planning** to ensure operations and procedures remain compliant, with unified experiences for ship and shore.

**View the full picture** with related documents and contextualise the wider regulatory landscape.

**Demonstrates compliance** to authorities, regulators, and insurers.

## Features

**Online and full offline operating modes** for crew onboard, **including a secure, encrypted and stable backup** for mandatory documents.

**Document histories** signify that documents are up to date.

**Advanced searchability** with a customisable view, including favourites, saved searches and the latest updates by source.

**Secure, encrypted and stable backup (Compliance Index)** pre-defines the essential documents required for compliance on board in line with carriage requirements.

**New** amendments to regulations are processed and live **within 48 hours** of being made available by the source, and a **12-month timeline** of forthcoming amendments.

Includes **regulations for flag states** with White List status and others under the Paris MoU PSC regime. **Additional datasets**, such as LR Rules, are also available online and offline.

The **Compliance Index** provides a dedicated view of documents for inspection purposes whilst **document histories** and **Latest Updates** demonstrate you are up to date, and therefore compliant. Regs4yachts is also **endorsed by flag states and authorities** as a compliant solution.

**Regs4yachts**

**Streamline compliance  
and gain peace of mind in a  
simple, unified platform.**
