

COMPLIANCE

Regulatory Compliance: Regs4ships

Bringing clarity to
operational compliance

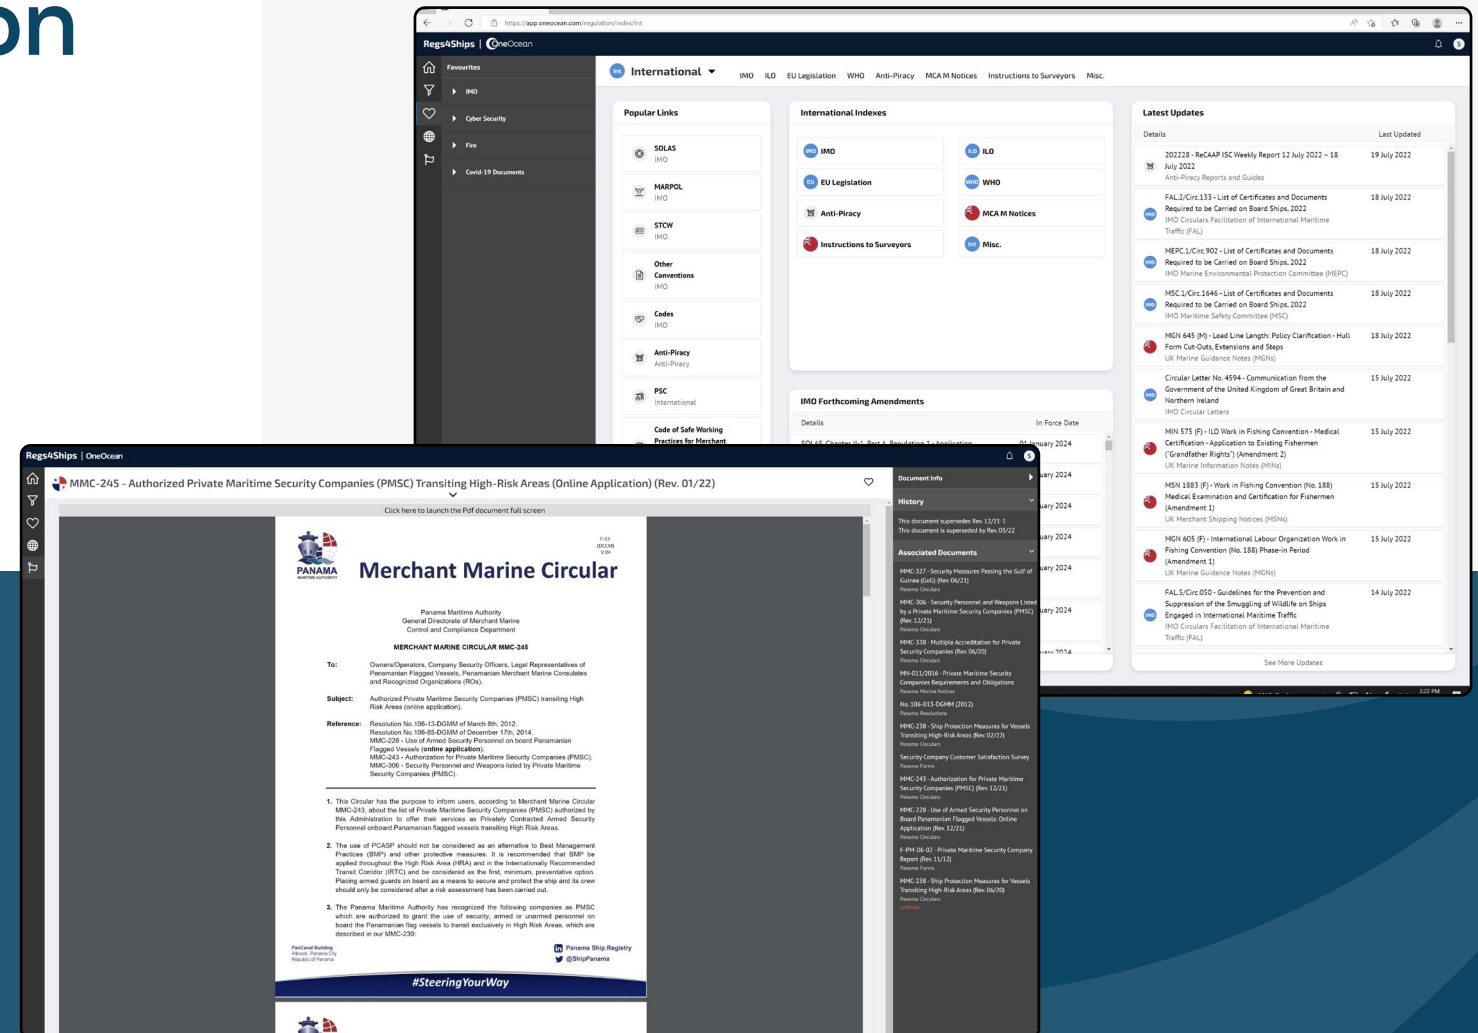

A single database for regulatory documentation

Through OneOcean Compliance, wherever a vessel is in the world it has the resources it needs to remain compliant with all regulatory and environmental requirements. And provides an accurate audit trail with consistent digital reporting – all accessible through the OneOcean^{LR} Platform.

The Regulatory Compliance module is a comprehensive, searchable database of every official regulatory document from multiple sources, including the IMO, ILO and numerous flag states. Fully digital, it's a fast and efficient way of accessing current data to make sure you stay compliant.

Easily search all regulatory documentation through one digital platform

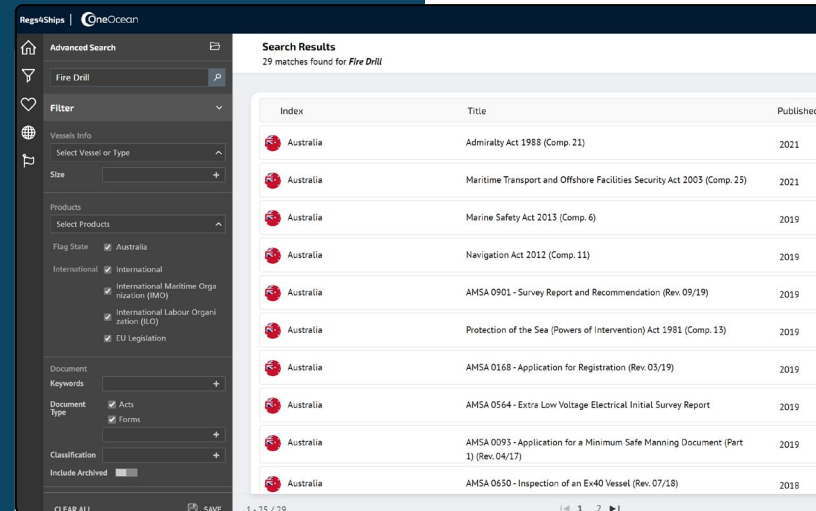

Mitigate the risk

Staying compliant can be a complex and time-consuming process for seafarers. You need to factor in international laws, ever-changing maritime regulations, plus marine rules that protect crew, cargo, vessels and the environment. And the repercussions for getting it wrong can be significant, incurring both financial and reputational consequences.

Regulatory Compliance, also known as **Regs4ships**, is a fully digital toolset that combines a comprehensive, searchable database of official regulatory documents from multiple sources, including the IMO, ILO and numerous flag states.

Updated and managed by the OneOcean^{LR} team of professional mariners and accessible via the Platform, it provides a single and convenient place to access all official nautical documentation. The solution replaces the manual process of sourcing, researching, collecting, reviewing, updating, distributing and tracking regulatory changes on a vessel-by-vessel basis.

Highlights

Easily searchable content from one digital platform

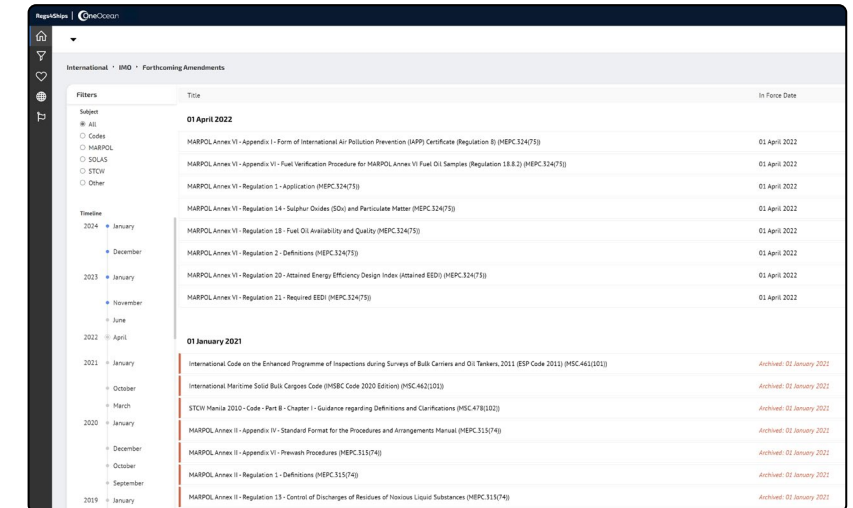

Includes regulations for flag states with White List status and others under the Paris MoU PSC regime.

Customisable view includes favourites, saved searches and latest updates by source

12-month timeline of upcoming document modifications

Documented amendments version history helps understand the impact on internal processes and policies
