

Honor your loved one by creating and sharing an online tribute

theMemories.com is a tool for creating an online tribute — or Life Story — for your loved ones who have passed away. Unlike a traditional obituary, theMemories.com enables family and friends to post unlimited photos, stories, quotes and condolences. The pain of losing someone never goes away, but we offer a place to share memories that will last forever.

Share who they were, not just what they did

We know there isn't just one beautiful photo or sweet story of your loved one — there are hundreds. A Life Story on theMemories.com gives you a place to share *all* of them.

A Life Story features:

- Unlimited Text: Say everything you need to without worrying about paying by the word.
- Unlimited Photo Gallery: Show your loved one at every stage in life.
- Timeline: Visualize your loved one's milestones through an interactive timeline.
- Guestbook for Condolences: Let others share their thoughts and memories.
- Online Contribution: Donate to a family fund or organization in your loved one's name.
- Accessible Online Forever: You can always add to a Life Story.
- No Cost: Creating and posting a Life Story is **free**.

Remember together

Creating or contributing to a Life Story on theMemories.com brings family and friends together, no matter their distance, to reflect on fond memories and celebrate good times. Sharing a Life Story across social media platforms like Facebook and Instagram is easy and allows family and friends from afar to add memories, photos and words of support.

“Posting my grandmother’s Life Story on theMemories was a lovely experience. I’m so grateful that I have all of her pictures and stories in one place and that I can easily share it with anyone.”
— Katherine
