## Asian Cities

The Asian Cities Series explores urban cultures, societies and developments from the ancient to the contemporary city, from West Asia and the Near East to East Asia and the Pacific. The series focuses on three avenues of inquiry: evolving and competing ideas of the city across time and space; urban residents and their interactions in the production, shaping and contestation of the city; and urban challenges of the future as they relate to human well-being, the environment, heritage and public life.

### Actively Seeking Proposals

The series welcomes scholarly monographs and edited volumes in English, by both established and early-career researchers.
