Digital Media Practices in Households

Kinship through Data

How are intergenerational relationships playing out in and through the digital rhythms of the household? Through extensive fieldwork in Tokyo, Shanghai and Melbourne, this book ethnographically explores how households are being understood, articulated and defined by digital media practices. It investigates the rise of self-tracking, quantified self and informal practices of care at distance as part of contemporary household dynamics.

Larissa Hjorth is a digital ethnographer, artist, Distinguished Professor and Director of the Design & Creative Practice Platform at RMIT University, Australia. She is a Visiting Professor at the Center for Co*Design at Osaka University, Japan.
