Visual and Material Culture, 1300-1700

A forum for innovative research on the role of images and objects in the late medieval and early modern periods, *Visual and Material Culture, 1300-1700* publishes monographs and essay collections that combine rigorous investigation with critical inquiry to present new narratives on a wide range of topics, from traditional arts to seemingly ordinary things. Recognizing the fluidity of images, objects, and ideas, this series fosters cross-cultural as well as multi-disciplinary exploration. We consider proposals from across the spectrum of analytic approaches and methodologies.
