

Edited by Anoma P. van der Veere, Florian
Schneider, and Catherine Yuk-ping Lo
**Public Health in Asia during the
COVID-19 Pandemic**

*Global Health Governance, Migrant Labour, and
International Health Crises*

Asian countries have dealt with COVID-19 with varying levels of success. The WHO's lack of effective leadership in the region has resulted in increasingly contested global health governance. The pandemic continues to undermine global health, and the highly interdependent economies in Asia have exposed the speed with which pandemics can now spread. The security of migrant workers is more precarious than ever. Millions have been stranded and face limited access to health services. *Public Health in Asia during the COVID-19 Pandemic: Global Health Governance, Migrant Labour, and International Health Crises* provides an accessible framework for understanding the COVID-19 pandemic in Asia through the lens of global governance in health and labour.

BIOGRAPHY

Anoma Phichai VAN DER VEERE is Researcher of Modern Asia at the Leiden Asia Centre, Leiden University, and Research Fellow at the IAFOR Research Center at the Osaka School of International Public Policy, Osaka University.

Florian SCHNEIDER is Senior University Lecturer in the Politics of Modern China at the Leiden University Institute for Area Studies.

Catherine Yuk-ping LO is Assistant Professor at University College Maastricht, Maastricht University.
