## Inclusive Curating in Contemporary Art

*A Practical Guide*

Recent decades have witnessed concerns over representation, inclusion, and social justice move from the margins to the centre of museum practice. While a growing number of institutions seek to reflect the diversity of their communities in exhibition-making, gaps remain in understanding applied approaches and practices. This book presents the inclusion of new voices and perspectives into the museum via "inclusive curating," a facilitated process empowering a wide demographic of people to become curators. Grounded in a case study, this book offers guidance in putting inclusive curating into action alongside a range of practical resources and key debates. Curating is often considered an exclusive job for a privileged few. But, by breaking it down using methods demonstrated throughout this book, not only does curating become more usable for more people, it also contributes to understanding the process and practices by which our cultural spaces can become democratized.
