Asian Heritages

The *Asian Heritage* Series explores the notions of heritage as they have evolved from European based concepts, mainly associated with architecture and monumental archaeology, to incorporate a broader diversity of cultural forms and value. This includes a critical exploration of the politics of heritage and its categories, such as the contested distinction 'tangible' and 'intangible' heritages; the analysis of the conflicts triggered by competing agendas and interests in the heritage field; and the productive assessment of management measures in the context of Asia.

Actively Seeking Proposals

The series welcomes scholarly monographs and edited volumes in English, by both established and early-career researchers.
