

Welcome to the Carbone Cancer Clinics

Welcome to our Carbone Cancer Clinics. To make your visit here easier, please read below. We've included a map to help you find your way around our clinics. Each location below lists a number. Look for that number on the map to find its location in the clinic.

Checking In

You begin every visit by checking in at the Registration Desk (1).

Lab Draws

If you are scheduled for a lab draw, you get a pager. Please wait in our Clinic Waiting Room (2). When your pager goes off, go to the Cancer Lab (3).

The Cancer Lab gives you a slip of paper after your labs are drawn. This paper will let clinic staff know you are ready to see your doctor. If your doctor is on the Main Level, please put the slip of paper in the basket at the Registration Desk (1). If your doctor is in the First Floor Cancer Clinic (J3/1), take the elevator to the first floor. Put the slip of paper in the First Floor Cancer Clinic Reception Area (4) basket.

Tests

If you are scheduled for tests like an x-ray, CT scan, MRI, or EKG, go there next (9 or 10). If you have a doctor visit after your test, please go to the Registration Desk (1) when your test is done. This lets staff know the tests are done.

Doctor Visit

If your doctor sees you in the First Floor Cancer Clinic (J3/1), take the elevator to the first floor. Check in at the First Floor Cancer

Clinic Reception Area (4). Wait there. If your doctor is on the Main Level, wait in the Clinic Waiting Room (2).

When Done for the Day

When you are done with your doctor visit and tests for the day, go to one of the Schedulers' Desks (5). They make your next visit. They also give you a summary of the day's visit.

Chemotherapy (Chemo)

If you need a treatment in the Chemo Room, go to the Chemo Check in Desk (6). Sit in the Chemo Waiting Area (7) until a staff member comes to get you.

We may need to wait for your doctor to sign chemotherapy orders or for lab results to come back. If you prefer not to sit in the waiting room, please ask for a text pager at the Chemo Check in Desk. This pager allows you to go other places in the hospital. You may want to visit the cafeteria, gift shop, or pharmacy while you wait. When your nurse is ready for you, your pager will buzz. There will be a note telling you to return to the Chemo Room.

You will receive information about your next visit in the Chemotherapy Room. It may also be mailed to you.

Medicines

You may need prescriptions filled. If so, pick them up at the Outpatient Pharmacy before you leave. If you are receiving treatment in the Chemo Room, ask your nurse about having your prescriptions delivered to you there.
