

Genelec is the global leader in the design and manufacturing of loudspeakers for both professional and home applications. Founded in Finland in 1978, our customers include the world's finest recording studios, broadcasters and public spaces, complemented by a rapidly growing community of customers creating and enjoying music at home. We are a company driven by purpose, innovation and passion, with high ethical standards and a total commitment to quality and sustainability.

We are now looking to strengthen our team with the addition of a Global Logistics Specialist who will form a key part of our highly focused logistics team. This is a unique opportunity to bring your skill and creativity to one of the world's most highly respected audio companies.

In return, we'll offer you a meaningful and satisfying job in an international, dynamic, and inspiring working environment. Your colleagues will be passionate, professional and innovative, and in this position, you'll have an excellent opportunity to develop your professional skills.

As Global Logistics Specialist you will be responsible for

- planning and developing global logistics, warehousing, transportation and customer logistics services as well as the internal logistics.
- Plan, monitor and optimize inbound goods and outgoing deliveries
- Developing processes and practises for carriers selection and negotiation tracks and rates.
- Develop processes and practices for carriers' selection and negotiation tracts and rates.
- Organize warehouse, label goods, routes, and process shipments
- Investigate and develop ideal shipping techniques, routing and carries
- Ensure all logistics operations adhere to laws, guidelines, and ISO requirements
- Work with other departments to incorporate logistics with company procedures and operations productively
- Update and evaluate logistics metrics to assess performance and implement improvements
- Lead logistics development projects

Qualifications required include:

- Bachelor/Masters degree in the field of logistics, sales & operation planning, or international business
- 3-5 years work experience but we will also consider applicants who are in the final phase of their study.
- Excellent project management and team working skills and in particular in building cross-functional cooperation
- Proactive working style

Location: Our office in Iisalmi.
