

HYGENIQ CLEAN AIR MIST

ORGANIC AIR CLEANING FOGGING LIQUID

For better air quality and carefree contact

Description:

HYGENIQ CLEAN AIR MIST is a 100% natural fogging liquid, highly suitable for protecting, cleaning and humidify the ambient air. The innovative HYGENIQ CLEAN AIR mist is based on molecular technology, was developed under the most stringent laboratory conditions, is manufactured in accordance with the strict guidelines of the HYGENIQ sustainability manifesto*, and as well as to Cradle to Cradle Certified™ Gold certification requirements. It can be used in all types of foggers and nebulisers. It is part of the innovative HYGENIQ CLEAN AIR product line: a range of hygiene products focused on "Carefree Contact". Visit www.hygeniq.com for more information about the HYGENIQ CLEAN AIR product line.

Properties:

HYGENIQ CLEAN AIR MIST is ideal for use in places where larger groups of people are gathered, or confined spaces where many people come and go, including events, hospitality venues, hotel rooms, office buildings, airports, public transportations, and taxis, etc.

Clean: HYGENIQ CLEAN AIR MIST is a protective and cleaning mist for an optimal hygienic result. The mist droplets agglomerate effectively with detrimental particles in the air while they descend due to gravitational force. During this process, an invisible screen is created by the droplets therefore, cleans and humidifies the air from top to bottom. The product can also be used to clean surfaces. HYGENIQ CLEAN AIR MIST can be used on a frequent basis for optimal results.

Safe: HYGENIQ CLEAN AIR MIST is safe for the skin and all surfaces. Thanks to the product's safe composition, no personal protective equipment** is required. HYGENIQ CLEAN AIR MIST is 100% natural and has been proven safe for the environment.

Instructions for use

Use a HYGENIQ CLEAN AIR Fogger or other suitable nebuliser to apply the mist in the space concerned.

- It is recommended to spray at the ceiling level (or as high as possible) of the room, and allow the mist to sink down from ceiling level
- Target vertical surfaces and contact surfaces by spraying them specifically, and then wipe clean with a cleaning cloth.
- A tank of 3 litres is approximately 12,000 m³ (based on mist particles of 20-150 µm)

Benefits

- Air cleaning and humidifying
- Skin friendly
- 100% safe for use on all materials and surfaces
- 100% plant-based, biodegradable ingredients
- Free of alcohol, parabens, phosphates, chlorine, ammonia and corrosive acids
- Easy to use with a hygienic clean effect

Packaging

3 L Bag-in-Box with hi-flo tap / Art. Code: B180036

Technical information

- Colourless to light amber
- pH in concentration: approx. 3.1

Storage, handling and transport

Store in a cool, dry place and tightly closed packaging. Non-classified and no safety measures are needed.

Caution:
