**You're not just anyone –  
so don't just wear anything!**

At satch, you will only find products that have been designed down to the smallest detail and are tailor-made to match your individual needs.

## Sustainability

Your future is our present. That's why we're doing everything we can to keep our environmental footprint as low as possible. For example, we only use PFC-free materials that are made from up to 100 % recycled PET bottles.

## Responsibility

To us, every team member is of equal importance! We work closely with the Fair Wear Foundation (FWF) to ensure good working conditions in our production facilities around the world. The FWF has awarded us with the best possible leader status for the 4th time in a row for constantly improving our social standards – impressive, isn't it?

## Individuality

Everyone's tastes are different, and what is IN today, by tomorrow is already yesterday's news. At satch, you have the opportunity to redesign your backpack at any time, and always make it a favourite item that suits your personal style.

## Functionality

Two hours of sport today, home-schooling tomorrow, a whole day of lessons the day after – no two school days are the same, right? Increased volume, an organiser, a padded laptop and tablet compartment – with your satch, you are ready for anything!

## Ergonomics

You're wearing your school backpack more than 150 school days, year after year. This means that it's even more important that everything is a good fit and that you feel at ease! All satch backpacks have an innovative carrying system that optimally supports you and even grow with you!

# LESS WASTE = MORE YOU!!

The COLLECTED GREY edition is not only made of PET recycled fabrics, but also from various fabric scraps from our production. The result: Our most sustainable product to date with an iconic melange look that varies from style to style.

## From leftover fabric to E Zero yarn

All the styles from the Collected Grey Edition are made of 60% innovative E Zero yarn – and this is how it works:

- 1 Fabric leftovers from our production are shredded into tiny fibre shreds.
- 2 The fibre shreds are separated and processed into cotton wadding.
- 3 The tough E ZERO yarn is spun from the cotton wadding.
- 4 The new fabric for our Collected Grey Edition is woven from recycled yarn.
