

IT'S
UP
TO
YOU

At school, at the gym, out with friends –
you do your thing.

Every day offers new opportunities.
And you can take them. With your ideas,
your opinions, your decisions.
satch is here to help you with that.
With smart functions and hip styles.

NEED ANYTHING
ELSE?

IT'S UP
TO YOU

satch stands for ...

Responsibility

By choosing satch, you've chosen people and the environment:

For our bags, we use materials that consist of up to 100% recycled PET bottles. Crazy, right?

We monitor the entire supply chain from the raw materials to the retailers. Every employee is equally important to us. That's why we also work tirelessly to achieve good working conditions where satch products are manufactured.

We at satch have decided to take responsibility. And that feels good – for you and for us.

Design

When it comes to trendy prints and styles, creativity and tact are required. Our design team in Cologne brings the trends from all over the world as unique satch designs directly to you. This way, you can easily find your own style. Just listen to your guts!

Functionality & Ergonomics

When you combine function and design, you get a satch. Want to bet? Our ergonomic concept shifts the weight to your pelvis, so that your back is protected. And the integrated Your-Size-System makes sure that your satch fits perfectly (from 1.40 m to 1.80 m body height).

Also: Reflectors all around you for more visibility? Check! Smart organizational functions? Check! Durable, stable and waterproof? Check! Sounds like the best of the best? Check!

Responsibility

We are part of this world and because we have great respect for our human kind and environment, we commit to corporate responsibility and fair play:

PET-recycelt

For our bags, we use materials that consist of up to 100 % recycled PET bottles. Plastic waste can therefore be reused, conserving our natural resources.

Savings since 2010:
95.102.297 PET bottles (0.5 L)

bluesign® & bluesign® product

As a certified partner of bluesign® our products are made of textiles that were produced consciously and environmentally friendly. We are also constantly expanding our collection with new bluesign certified products.

Fair Wear Foundation

With the objective to further improve working conditions within our production facilities worldwide, we are a member of the FAIR WEAR FOUNDATION (FWF). We are proud to have achieved Fair Wear Leader Status in 2019 and to be among the few companies that have been awarded the organization's best possible status.

PFC-free

Each and every satch product is REACH-confirmed, validating its chemical safety. The waterproof coating of our products is PFC-free.

Grüner Knopf

The »Grüne Knopf« identifies socially and ecologically sustainable textiles. We at satch are licensed by the »Grüner Knopf« and many of our products are already certified.

German Sustainability Award

We take corporate responsibility seriously! That's how we have become the winner of the German Sustainability Award (2016) in the categorie »Germany's most sustainable Corporation (SME)«.

For further information, please visit satch.com/en/responsibility

Ergonomics

Inspired by mountaineering, designed for school:

The satch back system ensures that the backpack's weight on the shoulders is shifted to the more stable pelvic area. Moreover, the ergonomic design allows for precisely fitting, matching any height from 1.40 m to 1.80 m.

Your-Size-System

- Adjustable back length**
Precise adjustment from 1.40 m – 1.80 m. To ensure an optimal fit for the ergonomic back panel.
- Height adjustable chest strap**
To stabilize the backpack and relieve the pressure on the shoulders. The shoulder straps remain in the perfect position. Adjustable height and length.

Anatomical shaping

- Padded shoulder straps**
Anatomically shaped for comfortable wear.
- Breathable back padding**
Intelligent construction of the back panel for optimal ventilation.
- Aluminum back rail**
Reinforces the anatomical shape of the back panel and gives the backpack stability.

Weight shifting concept

- Individual compartments**
For storing heavy books securely and close to the back and distributing the weight along the body.
- Load control straps**
For adjusting the weight on the shoulders and increased stability.
- Compression belt**
To secure the weight along the back.
- Hip belt with hip fins**
Shifts the weight to the pelvic area. Adjustable.

SRP* 99,99 €

► FURTHER INFORMATION P. 16

Material

Dirt and rain? No problem! Your satchel is made of durable fabrics with an additional exterior waterproof coating (PFC-free), and all zippers have covers to stop any wetness from getting through.

Organization

The compartments are designed to offer optimum weight distribution. Each model has an organizer with a padded mobile phone and laptop compartment, side pockets, a mesh pocket on the waist strap and much more. Every satchel is special: Whether it's the straps, the flap on the front, easy-access compartment, or 5-liter expander.

Robust

No matter how hard the school day will be: Your satchel backpack has a robustly designed bottom and reinforced dividers. This way, your satchel stays stable and doesn't hold you back – we promise!

Visibility

Every satchel is an eye-catcher, even in the dark! Thanks to the reflectors on the front, sides, shoulder straps and waist belt.

OR NOW NEVER

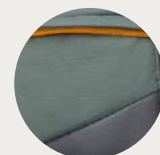

DO YOUR THING

Your time is now! Yesterday means nothing to you, because you're already looking forward to what's coming next? Then the NOW OR NEVER EDITION will suit you perfectly. Create your memories of tomorrow today, be creative, be curious, be adventurous. If life gives you the opportunity, have the courage to try something new!

The satch styles RIGHT HERE & RIGHT NOW have an unique colour block design that is best combined with your bike, a casual style and an open attitude. Relax, live the here and now – and grow!

FEATURES

- Pure-woven material
- High-quality zip
- 3D effect through elaborately sewn pattern
