

Orton House Retirement Home, on The Wirral, has provided assisted caring respite for over 20 years and has recently had it's boiler house upgraded and the installation is almost complete. Controlling and supplying the heating safely to the whole building, has been given over to MCG's and Crompton Controls 3000 Series isolators and starters. The contractor was Terry Anderson & Paul Summers at Pro-lec Electrical Services, Email: enquiries.prolec@gmail.com. Tel: 07803 609 658.
