EMERGENCY PROCEDURES
ADVICE IN AN EMERGENCY: CHEMCALL: 0800 CHEMCALL (0800 243 622) 24 Hours
Fire Brigade, Transport Emergency → Phone 111
NATIONAL POISONS CENTRE: 0800 764 766 (0800 POISON)

IF THIS HAPPENS DO THIS

Vehicle accident
Switch off engine and electrical equipment. Keep people away, warn other traffic. Check for spills, leaks. Call the emergency services: Dial 111

Spill or leak
In case of spillage it is important to take all steps necessary to avoid eye and skin contact and avoid environmental contamination. Keep all bystanders away. Wear full length clothing and PVC gloves. Reposition any leaking containers so as to minimise further leakage. Dam and absorb spill with an absorbent material (eg. sand or soil). Shovel the absorbed spill into drums. Disposal of the absorbed material will depend on the extent of the spill. For quantities up to 50L, bury in an approved landfill. For quantities greater than 50L seek advise from the manufacturer before attempting disposal. Contain in a secure location until disposal method is established. Decontaminate the spill area with detergent and water and rinse with the smallest volume of water practicable.

Fire
Call the Fire Service: Dial 111. No special requirements. Exposure to smoke may be a hazard to health.

FIRST AID
If swallowed
For advice contact the National Poisons Centre on 0800 POISON (0800 764 766), or a doctor immediately. If swallowed seek medical attention.
If in eyes
If splashed in eyes wash out immediately with water.
If on skin
If skin or hair contact occurs remove contaminated clothing and wash affected areas with soap and water.
If inhaled
Remove patient to fresh air.

STORAGE AND SEGREGATION
Storage: Keep out of reach of children. Store in a cool dry place out of direct sunlight, avoiding temperatures below 0°C and above 35°C. Store in original container, tightly closed, away from foodstuffs.

Aggregate Storage Volume Thresholds: When stored with substances of the same hazard the aggregate quantity must be considered. For full details refer to the current NZS8409 Management of Agrichemicals and the HSNO Regulations.
