UiPath Autopilot™

Introducing UiPath
Autopilot™

UiPath Autopilot™ is a new set of AI-powered experiences across the UiPath Business Automation Platform that make every user from interns to CEOs more productive.

...for Developers

Build automation solutions
in a breeze

Create automations, apps, and
expressions in
UiPath Studio and Apps

...for Testers

Ensure your automations are
production-ready

Generate endless test cases
for your automations in
UiPath Test Suite

...for Business Analysts

Discover more automations
everywhere

Find automation potential in
*UiPath Process Mining &
Communications Mining*

...for Everyone

Complete everyday,
time-consuming tasks

Be more productive with
*UiPath Assistant +
Clipboard AI*

June 2024 Release

UiPath Autopilot™ for developers

Enhances productivity for developers of all kinds

UiPath Integrates with Microsoft Copilot for Microsoft 365

Introducing UiPath
Autopilot™

Don't just create content –
take real action

- Automate over modern APIs using integration service
- UI Automation powered by best-in-class computer vision
- Process documents & emails with intelligent document processing

UiPath GenAI Activities

Easy to access, develop with, and leverage high quality AI predictions in automation workflows.

- Access to UiPath-managed LLMs and other LLM lifecycle tools
- Configurable with Action Center for Human in the Loop review
- R.A.G. support with Context Grounding
- Securely governed with AI Trust Layer

**AI-powered
building blocks**

AI Trust Layer

PII Filtering – Context Grounding

UiPath-managed LLMs

Intelligent UI form handling

AI-powered
building blocks

Improved UI forms handling with specialized AI and learnings from Clipboard AI.

- Resilient to UI changes
- Speed development
- Reduce maintenance

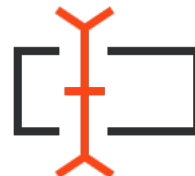

Form Fill

Uses AI to complete a form.

Form Copy

Uses AI to read the data from a form.

Set Value

Uses AI to input data into a single field.

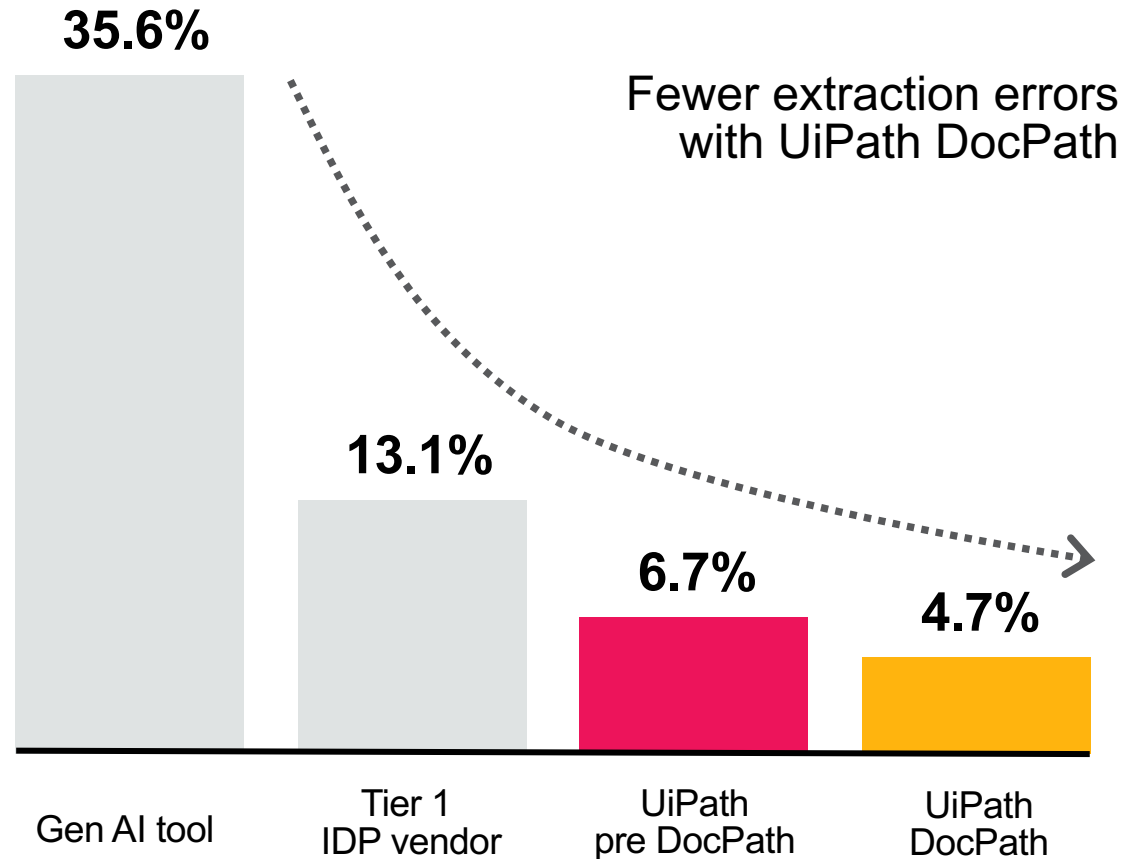

UiPath DocPath LLM

AI built for your documents

- Process documents out-of-the-box
- A specialized LLM for improved accuracy, cost, and data security
- Better for free-form complex data and tables

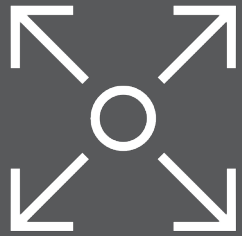

The new Active Learning experience will soon enable higher accuracy, faster!

Test by UiPath Research on a diverse set of enterprise documents

Combining specialized and generative AI for better results

The most
comprehensive
implementation of
the UiPath Business
Automation Platform

The compelling
scale, speed and
ROI profile of
cloud computing

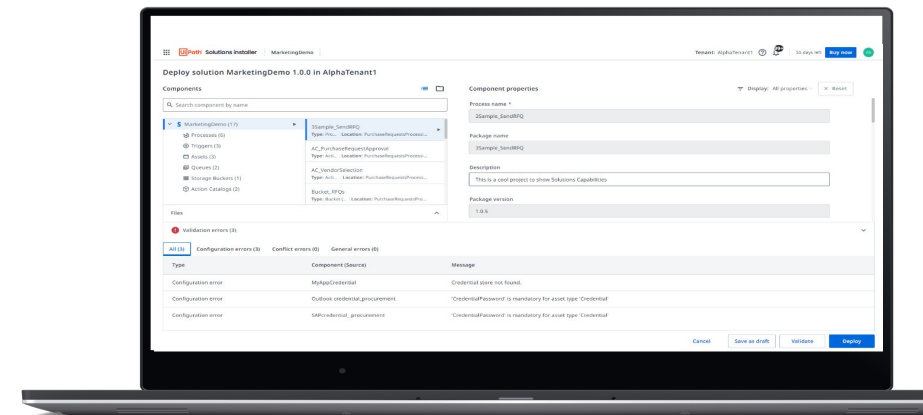

The first, and
sometimes only,
place to get access
to transformative
automation
capabilities

New in Automation Cloud™

Enterprise Grade
Cloud

- **India** and the **United Kingdom** are new regions where customers can have UiPath Automation Cloud™ tenants hosted
- The available **delayed update ring** feature is extended to Europe (previously US only).
 - Guaranteed 14 days preview of platform updates before they go into your production environment
- Automation Cloud Public Sector recently received FedRAMP moderate authority to operate.
 - Now available to US Public Sector organizations and their authorized partners
- Solutions management is GA.
 - Package and redeliver complex automations made up of multiple components, services and settings to a new tenant, or even a new organization

UiPath

A person wearing a bright red jacket and dark pants stands on a large, mossy rock in the foreground, looking up at a massive, multi-tiered waterfall cascading down a dark, rocky cliff. The scene is dramatic and awe-inspiring, with the water appearing as white ribbons against the dark rock.

Thanks
